

Hooksett, N. H.

Annual Report 1965

PUBLIC SERVICE

Commenting on Lee Mingledorff's intention not to seek reelection as Mayor of Savannah, Georgia, Judd Arnett in his *Savannah Morning News* column of March 2, 1958, made some sage observations on public service which are worth wider distribution. After praising Mayor Mingledorff for having done "a sterling job under adverse conditions," the columnist continued:

"In politics, as in civic affairs in general, it is one thing to sit on the sidelines and carp and hoot, but it is something else again to offer your time, your energy and perhaps some of your hoardearned pelt to the cause of public betterment.

"Getting away from politics for a minute, let us say that no matter where you go in America, there is always a 'hard core' of the civic-minded doing the bulk of the work which, in the long run, aids the public at large. It seems to be human nature for the majority of us citizens to 'let George do it,' and as a result a mere handful of stalwarts run themselves bowlegged in behalf of community welfare and advancement while the rest of us blandly permit the world around us to go hang.

"The worst of it, however, is that those who serve year in and year out in various capacities seldom receive public acclaim for their efforts. Some of the most unpopular men we have known were among those who did the most to aid their communities.

"What, then prompts even the few to serve? Well, we are told that there is a good deal of personal satisfaction to be gained from making a community blossom, but chiefly the urge to be of benefit strikes either those who are in business, and thus being in hack up to their eyebrows must make the mare go or wind up in bankruptcy, or afflict those who are in love with the communities where they have decided to spend the rest of their lives.

"In either case the reaction is the same. The faithful servants persevere and absorb the slings and arrows of criticism, or withstand the worst indictment of all - public apathy - because they know that no community stands still. It progresses or dies on the vine, and take your choice.

"It requires an endless number of praddings, coaxings, pleadings and alarm-rings to lead a community inch-by-inch along Progress Pike, especially when many of the people are dragging their feet. Fortunately, there are always men and women, the cream of our citizenry, who are willing to lead the way, even though they know in advance that they aren't likely to receive an ovation in the court house square for their efforts."

PROPOSED TOWN BOUNDARY CHANGE

SECTION — HOOKSETT—AUBURN, N.H. TOWN LINE
HOUSE LOTS FROM PLAN BY WALTER O'NEIL, C.E. 1964
TOWN LINE LOCATED BY M.G. FERRY, C.E. & G.R. HYDE, L.S. 1964

LEGEND

- PROPOSED NEW TOWN LINE
- - - PRESENT TOWN LINE

TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Hooksett in the County of Merrimack in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Hooksett Memorial School Auditorium in said Hooksett on Tuesday, the eighth (8th) day of March next at ten of the clock in the forenoon, to cast your ballots for Town Officers. Polls close at 6:30 P.M., action on remainder of warrant starts at 7:00 P.M.

1. To choose all necessary Town Officers for the year ensuing.

2. To vote on the question "Shall the Subdivision regulations as proposed by the Planning Board be adopted for this Town"? (On Town Ballot).

3. To vote on the question. "Shall proposed amendment to the Town's Zoning Ordinance relative to Airport Zoning, as submitted by the Planning Board be adopted by this Town"? (On Town Ballot).

4. To see if the Town will vote to give a discount of two (2 percent) percent on all taxes, except poll taxes, paid on or before the fifteenth (15th) day of July, and to grant the Selectmen authority to extend this date if unable to get tax rate from State Tax Commission as of July 1st.

5. To see if the Town will authorize the Selectmen to hire money in anticipation of the 1966 taxes, to be repaid therefrom.

6. To hear the report of the Selectmen, Town Treasurer, Agents, Auditors and Committees, or other officers heretofore chosen or appointed and to pass any vote relating thereto.

7. To see if the Town will vote to raise and appropriate the sum of six hundred fifteen dollars and fifty eight cents (\$15.58) the State to furnish four thousand one hundred three dollars and eighty four cents (\$4,103.84) the same to be expended under the State Highway Department for Class V Town Road Assistance, or take any action thereto.

8. To see if the Town will vote to raise and appropriate the sum of \$1,475,800.00 for the purpose of financing and constructing a municipal sewage disposal system, including sewerage, interceptors, pumping stations, treatment works and such other related facilities inclusive of land acquisition, easements and rights of way as are required, such sum to be raised by the issuance of not exceeding \$1,475,800.00 in Serial Bonds or Notes under and in compliance with the provisions of the Municipal Finance Act (Chapter 33 of the New Hampshire Statutes Annotated 1955 and any amendments thereto) and to authorize the Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interests of the Town of Hooksett, and pass any vote relating thereto.

9. To see if the Town will vote to authorize the Selectmen to apply
Selectmen to apply, negotiate and do all other things necessary to obtain such Federal, State or other assistance as may be available in the construction of a sewerage disposal system, and pass any vote relating thereto.

10. To see if the Town will vote to adopt the provisions of Chapter 252 of the Revised Statutes Annotated relative to the Construction and operation of sewers and sewage treatment facilities in the Town of Hooksett.

11. To see if the Town will vote to establish a Board of Sewer Commissioners, consisting of three members, which Board shall perform all of the duties and possess all of the powers conferred on Sewer Commissioners by RSA 252:19; and if this article shall be adapted, to elect, by ballot, three sewer Commissioners, one for three years, one for two years, and one for one year.

12. To see if the Town will vote to ratify Chapter 469 of the Laws of 1965, An Act changing part of the boundary line between the Town of Auburn and Hooksett. The Portion of said Act pertaining to the changing of said boundary line is as follows:

469:1 Town Line. The portion of the boundary line between the towns of Auburn and Hooksett northerly from the corner which is the northeasterly corner of the town of Hooksett shall be as follows: Beginning at a stone set in the ground and marked A.H.M. and which marks the northeasterly corner of the city of Manchester and the southeasterly corner of Hooksett, said stone being seven (7) rods north of Wellington Avenue and three (3) rods west of the house now or formerly of Amas Young; thence N. 3 degrees 20' W. two hundred thirteen (213) feet, more or less, to a stone bound at land of Ray W. and Norma F. Davis, said stone bound also being the northeasterly corner of land of Charles Martin; thence N. 87 degrees E. by land of said Davis eighty-nine and thirty-five one hundredths (89.35) feet

to an iron fence at land of the State of New Hampshire; thence N. 6 degrees 20' W. by said iron fence; thence N. 62 degrees 45' W. by said iron fence one hundred seventy (170) feet, more or less, to a bound on the town line of the towns above mentioned. All that portion of the town of Auburn lying west of the above described line is hereby disannexed from the town of Auburn and annexed to the town of Hooksett and all that portion of the town of Hooksett lying east of the above described line is hereby disannexed from the town of Hooksett and annexed to the town of Auburn.

(NOTE: 51:9 required ratification by 2/3 of each town, present and voting, by ballot at the annual or biennial meeting for the election of officers held next after the passage of the legislative act.)

13. To see if the Town of Hooksett will vote to participate in the Urban Planning Assistance Program, and appropriate \$4,000.00 as the Towns share of the total cost. (Federal Grant \$8,000.00)

14. To see if the Town will vote to raise and appropriate a sum not to exceed twenty-four thousand dollars (\$24,000.00) for the purchase by bid of a new front end loader. The sum to be borrowed on the credit of the Town and amortized over a period of six years and principal yearly payments to be withdrawn from the capital reserve fund of the Town.

15. To see if the Town will vote to enact the following ordinance:

Emergency Interim Succession Ordinance.

1. Emergency Interim Successors to Town Officers: All Town Officers, shall, upon passage of this ordinance, designate, by title, emergency interim successors to his or her office and specify their order of succession. Each such officer shall review and revise, as necessary, designations made pursuant to this ordinance to insure their current status. The officer shall designate a sufficient number of such emergency interim successors so that there will be not less than three, nor more than five, such emergency interim successors at any time. In the event any town officer is unavailable following an attack, as defined in RSA 108-A, the powers

of his office shall be exercised and the duties of his office shall be discharged by his designated emergency interim successors in the order specified. Such emergency successors shall exercise said powers and discharge said duties only until such time, where a vacancy exists, as a successor is appointed or elected and qualified as provided by law, or the officer becomes available to exercise, or resume the exercise of, the powers and discharge the duties of his office.

2. Formalities of taking Office: Each Town Officer shall record the names of the emergency interim successors designated by him or her in the office of the Town Clerk at the time of such designation, emergency interim successors shall take such oath as may be required for them to exercise the powers and discharge the duties of the office to which they may succeed.

3. Removal of Designees: Persons designated as emergency interim successors shall serve in their designated capacities at the pleasure of the designating authority and may be removed or replaced by said designating authority at any time, with or without cause.

4. Takes Effect: This ordinance takes effect upon its passage.

16. To see if the Town will vote to raise and appropriate the sum of five hundred dollars (\$500.00) for the purpose of conducting a survey in the South Hooksett Water Precinct relative to the supplying of water to the homes and businesses in that area and for publication of a report covering the same.

17. To see if the Town will vote to raise and appropriate a sum of money not to exceed five thousand dollars, (\$5,000.00) for the purpose of constructing a Utility Building at the Little League Baseball Park for the purpose of equipment storage and adequate sanitary facilities. This sum of five thousand dollars (\$5,000.00) to be borrowed on the credit of the Town and the same to be amortized over a period of three years. (Inserted by petition)

18. To see if the Town will vote to adopt the following ordinance pertaining to Dance Permits and supervision:

1. PROHIBITION: No person or persons, firm or corporation shall permit or conduct any gathering, at which 50 or more persons are present, for the purpose of dancing or other similar amusement, without first obtaining a permit as herein provided.

2. PERMIT: Any person or persons, firm or corporation required to obtain a permit under section 1 of this ordinance shall make application to the Chief of Police on such form as he shall prescribe. The Chief of Police shall issue a permit for the event or events described therein, subject to such regulations for the conduct thereof as he shall deem necessary with approval of the Board of Selectmen, for the orderly conduct and operation of said dance or dances. Such permits shall be valid for the period prescribed thereon and may be revoked at any time for failure to comply with this ordinance and the regulations promulgated thereunder.

3. POLICE: Upon application for a permit as required herein, the Chief of Police with the approval of the Board of Selectmen, shall detail such number of police officers to be in attendance as shall be necessary to insure orderly conduct and to provide adequate traffic control for the safety of the patrons and the general public. All expense of providing such police officers shall be paid for by the operator of the dance at rates to be determined by the Chief of Police, with the approval of the Board of Selectmen.

4. PERMIT FEES: The fee for a permit under this ordinance shall be \$1.00 for each event or \$5.00 per year. Annual permits shall be renewed on April 1st of each year. No fee shall be required for churches, service organizations, schools and Charitable Organizations.

5. PENALTY: Every person or persons, firm or corporation violating any provision of this ordinance shall be fined not more than Ten (\$10.00) Dollars for each offense.

6. TAKES EFFECT: This ordinance shall take effect upon its passage.

19. To see if the Town will vote to accept the Budget, as submitted by the Budget Committee, or take any other action in relation thereto.

20. To see if the Town will vote to authorize its Fire Departments to go to the aid of other Towns and other Cities within the State for the purpose of extinguishing fires therein as provided in RSA 154:24; and specifically to authorize said Fire Departments to join a mutual aid compact with the Towns of Allentown and Pembroke.

Given under our hands and seal, this second day of February, in the year of our Lord nineteen hundred and sixty-six.

HEADS CHAPEL

Old buck building located at Heads Cemetery served years ago as a school, now being remodeled by the Hooksett Women's Club and Cemetery Commission as a chapel and office.

ABSTRACT OF ACTION TAKEN

ABSTRACT OF ACTION ON ARTICLES IN WARRANT

March 9, 1965 Town Meeting

Meeting called to order at ten o'clock in the forenoon by Moderator George A. Cook who proceeded to read that part of the warrant calling for this meeting as posted in the required Public places, by the Selectmen, after which polls were declared open at 10:45 A.M.

Upon motion of Ray Langer, duly seconded, it was voted to keep the polls open during the period of voting on articles in the Warrant.

At this election, School District officers as well as Town Officers were chosen on separate ballots. Ballots for School District officers being prepared by the District Clerk, while those for Town Officers were supplied by the Town Clerk: said ballots having been presented the election officials upon the opening of the polls.

At seven o'clock P.M. meeting was called to order for voting on articles in the warrant by Asst. Moderator Armand Roberge, who had been previously sworn in to act in the capacity of Moderator. Each article was read and acted upon separately as follows;

ARTICLE 1. Officers chosen in open meeting not on ballot. Surveyors of Wood and Lumber: Stanley Spiewack, Alfred Rousseau, William Courser and Warren Douglas. Weighers of Commodities: Homer Enderson, Rutger Brock, Leslie M. Pike, John Bates, Roland Casey, James Gilbert, and Edward O'Connor. Fence Viewers: Melvin Johnson, George A. Cook, Frederick Jackson, Roland Boisclair and Roland Gagnon. All Officers so chosen were duly sworn to office.

ARTICLE 2. Calling for yes or no vote at the bottom of the Town ballot on the subject "Shall the Subdivision regulations, as proposed by the Planning Board, be adopted for this Town?" was not acted upon in open meeting. (See result of vote on this subject at end of minutes for this meeting.) At this point, Francis Gray presented a motion that this meeting be conducted under Roberts Rules of order, revised, except that the undebatable motion (to lay on the table) be eliminated in order to allow debate on all Articles in the Warrant, Seconded and so voted.

ARTICLE 3. Upon motion made and duly supported, it was voted to give a discount of two (2 percent) percent on all taxes, except poll taxes, paid on or before the fifteenth day of July, and to grant the Selectmen authority to extend this date if unable to get tax rate from State Tax Commission as of July 1st.

ARTICLE 4. Upon motion of Harold Murray, duly seconded, it was voted to authorize the Selectmen to hire money in anticipation of the 1965 taxes, to be repaid therefrom.

ARTICLE 5. A motion was made by Ralph Page that reports of Selectmen, other officers and committees as printed in the town report, be accepted as read. John Luckers was recognized by the Moderator and pointed out several corrections in a committee report and original motion was revised to include such corrections. Upon being seconded, it was so voted.

ARTICLE 6. Moved by Bernard Zapora, seconded, that the town raise and appropriate the sum of \$532.83, the State to furnish \$3,552.17, to be expended under State Highway Dept. for class V Town Road Assistance and it was so voted.

ARTICLE 7. Ralph W. Page moved, and motion seconded and voted that the town raise and appropriate the sum of \$2,000 to purchase approximately three acres of land adjacent to the Merrimack River and north of the Industrial Park from Robert Zapora for use as a site for a sewage treatment plant.

ARTICLE 8. To see if the Town will vote to raise and appropriate a sum not to exceed eighteen thousand five hundred (\$18,500.00) for the purchase of a new Class A 750 gallon per minute pumper for the Hooksett Village Fire Department. This sum to be borrowed on the credit of the Town and amortized over a period of six (6) years. Yearly payments to be withdrawn from the Capital Reserve Fund of the Town. (Inserted by Petition.)

A motion was made by Mr. Harold Murray that the article be adopted as read. A second motion was made that the \$18,500.00 sum be amended to \$16,500.00, which would be in line with previous equipment purchased. A member of the Hooksett Fire Department rose to explain that the pumper which was being replaced was extremely old and not adapted to use with equipment from other towns when such need arose. The \$18,500.00 figure included special fittings, etc. which would permit a more flexible interchange on pumps of other vicinities when necessary. The Moderator ruled that the second motion could not be acted upon until the original motion by Mr. Murray had been disposed of and upon the seconding of the original motion, a voice vote was taken resulting in the adoption of the article as read.

ARTICLE 9. To see if the Town will establish a Town Conservation Commission as set forth in R.S.A. 36-A. (Inserted by Petition) Mr. Lambert moved and motion was seconded that the article be adopted as read. A

request was made from the floor for an explanation of what this article covered. It was explained that his Commission, if established, would be at no cost to the town and that such a Commission should be established for sanitary reasons as well as the Conservation of natural waterways, wildlife, etc.

Vote was then called for and result was declared in the affirmative.

ARTICLE 10. To see if the Town will vote to establish the position of a full time police officer. Said officer to be an adequately trained and experienced man to be appointed for a term and salary to be determined by the Chief of Police with the approval of the Board of Selectmen; and to raise and appropriate the sum of Six Thousand (\$6,000.00) for this purpose for the year 1965. Ralph W. Page moved that the article be adopted as read, and this motion was seconded. A question was raised from the floor as to whether a part-time Chief of Police would be giving orders to a full-time police Officer. Chief Rice explained that there would be a training period for the full-time Police Officer, after which the full-time officer could be appointed Chief at any time the Selectmen so desire.

(1) Motion was made to amend the article to give preference to a resident of Hackett, provided said resident met all requirements, qualifications, etc.

(2) Another motion was made to further amend the article that the full-time Police Officer selected be required to move to Hackett if he was not a resident of that town at the time of selection.

The Moderator called for a vote on the article as amended by (1) and (2) above and the resulting vote was declared in the affirmative.

ARTICLE 11. To see if the Town will vote to authorize the Board of Selectmen to purchase and equip a Police Cruiser and to raise and appropriate the sum of three thousand (\$3,000.00) dollars for this purpose. Arthur Danati moved that the article be adopted as read and motion was seconded. (1) Mr. Luckers moved that the article be amended to raise the sum from \$3,000.00 to \$3,200.00 and that a station wagon equipped with

emergency First Aid and fire fighting apparatus, be purchased in lieu of a police cruiser.

It was pointed out that the \$3,000.00 figure could not be raised by amendment and this motion (1) was rescinded and an amendment offered to read that the original sum of \$3,000.00 be appropriated to purchase an "emergency equipped station wagon" rather than a "police cruiser" as originally stated in the article. Vote was called for on the article as amended and result was declared affirmative by the Moderator.

ARTICLE 12. To see if the Town will vote to amend its Ordinance relative to "New Streets and extending of Existing Streets" by rescinding Section 1-B of said Ordinance and substituting therefore a new Section 1-B as follows:

B. All new streets, or extensions of existing streets shall have a roadway thirty (30) feet in width, properly graded, with a base of 6" crushed gravel per State Specifications, Art. 221 and 12" gravel per State Specifications Art. 210, and a wearing surface of 3" Type 1-1 hot asphaltic concrete plant mixed per State Specifications Art. 250. Shoulders must be graveled to a depth of not less than 8".

If curbing is installed, roadway shall be graveled and surfaced as provided above from curb to curb. Slopes shall be graded and guard rails installed, where necessary, in accordance with State Specifications.

All reference to State Specifications shall mean Standard Specifications for Road and Bridge Construction of New Hampshire Department of Public Works and Highways.

A motion was made to pass over this article but the Moderator pointed out that the adoption of Mr. Gray's motion (following Article 2) made a motion to pass over impossible.

After a lengthy discussion from the floor and explanations by the Selectmen that by the individual contractors building to proper grade level originally, the town would not be paying for the finished work when street was accepted by the town, and furthermore, this article was already generally covered on the town ballot.

Motion was then made and seconded that Article 12 not be accepted. Moderator explained that by the word-

ing of this motion, an affirmative vote means defeating the article. Vote was called for, taken and results declared affirmative.

ARTICLE 13. It was moved and seconded that the Town raise and appropriate the sum of five hundred dollars (\$500.00) for the purpose of conducting a survey in the Hackett Hill area relative to the formation of a water precinct for the purpose of supplying water to the homes and businesses in that area and for publication of a report covering the same. And it was so voted.

ARTICLE 14. That the members at large of the budget committee be elected by Australian or secret ballot by majority vote at the annual election. That the present members serve out their terms. That three members-at-large be elected annually as term of present members expire so that all members-at-large would be elected by ballot by the time three elections are held. That all candidates be taxpayers and legal voters. That vacancies be filled by majority of budget committee from interested nominees who receive next highest number of votes at last election.

(1) Mr. Luckers moved that the article be amended to "Australian" or "non-partisan" ballot.

(2) A second motion to amend was made to delete "Australian or non-partisan ballot" and leave "secret" ballot only.

(3) A third motion was made to delete the sentences 4 and 5 from the article.

It was then explained that Australian ballot means secret ballot and after some discussion, second motion was rescinded and article as amended by first and third amendment motions was called for vote, and results declared in the affirmative.

ARTICLE 15. To see if the Town will vote to adopt the Australian Ballot System as a method of Voting for Town Officers in lieu of the NON-PARTISAN Ballot System presently in use; to take effect at the March 8, 1966 Town Meeting.

A motion by Bradford Brooks to amend the article by inserting "non-partisan" prior to the word "Australian" was made but after discussion, was withdrawn. A motion

was made and seconded to vote on the article as read, and said vote was declared Noy, defeating the article.

ARTICLE 16. Calling for election by ballot of various town committees and boards instead of appointment of same, was defeated on voice vote.

ARTICLE 17, 18, 19. Calling for changes in oil tank facilities at town office building, Village fire department and So. Hooksett fire department. All rejected by voice vote, the Budget Committee having previously disapproved of said articles.

ARTICLE 20. Calling for bids on fuel requirements for all town buildings not having bulk fuel tanks. Motion made and seconded to reject this article. Under discussion, John Luckers estimated a savings of 25 per cent annually would be effected if accepted. Put to a vote, Moderator declared article defeated.

ARTICLE 21. Calling for bids on fuel requirements for all town buildings having bulk tanks. Motion by Rudolph Dlugosz to reject this article was seconded, and it was so voted.

ARTICLE 22. Having to do with extending the authority of the fuel and heating committee previously appointed, to effect possible savings in the future. John Luckers moved to reject this article. Seconded and so voted.

ARTICLE 23. Relative to replacements of member of fuel heating committee in case of any resignations. Motion made and seconded that this article be rejected and so voted.

ARTICLES 24, 25, 26. Interrelated Articles. Calling for appropriations to (24) install forced hot water system at Town Office Building, (25) extended to include the Town Library, (26) plus changes in duct-work at Town garage. John Luckers moved to adopt Art. 24, seconded. Discussion. Put to a vote. Moderator declared Art. 24 rejected. Luckers then moved to reject Art. 25, seconded and so voted.

Bernard Zapora moved to reject Art. 26, Seconded and so voted.
These three articles had been previously disapproved by the Budget Committee.

ARTICLE 27. Called for the voters to instruct the Moderator not to ask for a vote on any motion made and seconded to pass over or adopt until all persons present have been heard and all discussions ended. Following the reading of this article by the Moderator, it was announced that motion made and adopted under Article 2 made action unnecessary under Article 27 and upon motion of Francis Gray, duly seconded, voted to reject Article 27.

At this point, Selectman Morin announced that any rules of procedure adopted for this meeting would not be effective at any subsequent meeting without further enactment at such meeting.

ARTICLE 28. To see if the Town will vote to accept the Budget, as submitted by the Budget Committee, or take any other action in relation thereto. Following reading of this article by the Moderator, a motion was made to raise the amount in the budget for Parks and Playgrounds from \$5,225 to \$11,000. Discussion. Roland Casey gave explanation relative to costs of various projects as planned. It was then announced that budgeted items could not be raised in this manner and motion was rescinded. A motion was then made to adopt Art. 28 as printed, seconded and so voted.

Upon motion of Rutger Brack, seconded, Moderator called the business session adjourned at 9:10 P.M.

Total number of ballots cast for Town Officers - 783 Votes

For Selectmen for three years -	
Wilfred J. Carrier	had 61 Votes
Donald J. Cochrane	had 25 Votes

SELECTMEN'S REPORT

TO ALL RESIDENTS AND TAXPAYERS OF THE
TOWN OF HOOKSETT:

The Board of Selectmen of the Town of Hooksett is pleased to submit herewith for your consideration and approval our account of the stewardship of the Towns' affairs for the year 1965.

In our opinion the year 1965 has in many respects been the most remarkable in the entire History of this Town. The commercial and residential growth of this town will total nearly two million dollars at one hundred percent evolution in the year 1965, this means that our tax rates will increase by well over a million dollars in computing the 1966 tax rate. This is indeed a phenomenal and unprecedented increase. There can be only one answer for this rapid rate of growth, and that is, that the message describing the excellence of Hooksetts' location, its exemplary local government, its fine municipal services, its good schools and churches and last but not least, the sterling quality of its citizens have finally reached the rest of New England and even beyond.

During the past year, your Board of Selectmen have worked closely and constantly with the Engineering firm

of Morgenroth & Associated to the end that final working plans and drawings of a sewage system for the Town would be complete. This has been accomplished and we are now ready for construction bids for the project. We sincerely believe that within five years the gigantic task of making the Merrimack River a clean waterway will have become a reality. An article authorizing the construction of this project will appear in this years warrant. We urge every citizen to give careful consideration to his individual vote concerning this article. He should bear in mind that should the article fail to pass, that sooner or later the State of New Hampshire will nevertheless order the Town to construct the system.

Chairman Marin of the Board of Selectmen led a spirited fight in the New Hampshire Legislature for the conversion of Hooksetts' Municipal Court to a District Court. Several similar bills for different towns were filed but the bill concerning Hooksett was the only one to reach the floor of the legislature and only after a bitter debate was the bill defeated by a narrow margin. A bill, concerning an adjustment of the Hooksett-Auburn town line was also introduced in the 1965 legislation by

the Town of Hooksett thru its representatives. This bill was voted upon favorably by the legislature and an article authorizing the provision of the adjustment will appear in the 1966 warrant.

All articles in the 1965 warrant that were voted upon in the affirmative have been implemented by action of the Board of Selectmen. Article eight concerning the purchase by the Town of a New Class A-750 gallon per minute pumper for use by the Village Fire Department has resulted in the acquisition of the same. This piece of equipment is nearly identical to the one purchased a year ago for the use of the South Hooksett Department. The Town is now in possession of two fine, new, efficient pieces of fire equipment. It is interesting to note, that even though the cost of this equipment totaled a sum of Thirty-five thousand dollars (\$35,000.00) that the tax rate was not affected. This is of course due to the judicious use of our Capital Reserve fund that was established some years ago.

Article nine of the 1965 warrant created a Conservation Commission to serve the Town of Hooksett. We are pleased to report that Fred Lambert, Robert Tuttle and Eugene Frozer have been appointed as Commissioners. These gentlemen have wasted no time in organizing the Commission and acquainting themselves with the duties of this office. Already they have begun to function in the interest of the Town.

Articles ten and eleven, concerning the Police Department have been implemented according to the provision of the articles. We are pleased to report that Fred Nolette of Berlin and Lancaster, New Hampshire is your new permanent Police Officer.

Article thirteen, appropriating the sum of five hundred dollars (\$500.00) for the use of a water precinct to be formed in the Hackett Hill area was voted upon in the affirmative. The precinct has been formed and the appropriation has been used to conduct the necessary surveys. We understand that a source of water for the precincts use has been found and that studies are presently under way to determine the feasibility of

constructing a system. May we extend our congratulations to the commissioners of the Hackett Hill precinct for their diligent efforts to bring a municipal water supply to that area of Hooksett.

We are pleased to report that an additional water precinct has been formed in the South Hooksett, Morrill Road section of the Town. This Board extends every good wish that this group may be successful in obtaining a municipal water supply for their section of town. In order to help this precinct in conducting original surveys an article to raise the sum of five hundred dollars has been inserted in the 1966 warrant. This is a courtesy previously extended the Central and Hackett Hill precincts. We might add that abundant water is a decided factor in the future growth of this town.

It is a source of deep personal satisfaction to this Board of Selectmen and we hope to every citizen in this town that the 1964 Hooksett Town Report won top honors in the 1965 Class IV competition for excellence of annual reports. The Hooksett reports, under the editorship of Oscar Morin Jr., have been second or third in these competitions for the past three years and the 1964 report certainly marks the culmination of Mr. Morin's efforts. The first place award in this competition is especially gratifying in light of the fact that this town must compete with towns and cities with a population up to ten thousand.

As you read your 1965 Town Report, please note under the Auditors statement the financial condition of the Town as of December 31, 1965. You will also note that some line items appropriation figures have been exceeded. The Board of Selectmen have made a very special effort to make sure that all invoices for service rendered to the Town in 1965 were paid in 1965 and not carried into 1966. It is permissible under State Statutes to transfer funds from an unexpended balance of one appropriation to another appropriation as long as the entire appropriation is not exceeded. This can be done only at the end of the year. This we have done and the entire appropriation has not been exceeded.

The Town Meeting of 1962 created a Cemetery Commission comprised of three men, Lionel LaPlante, Ernest Gould and Clifford Thompson. The splendid and pleasing condition of our cemeteries bear witness to the energy, ability and pride of achievement of these three men. In late November of 1965, the whole town was saddened by the untimely death of "Cliff" Thompson. We realize that words are futile to describe the sense of loss created by the demise of this fine man. Let it suffice to say that whenever we think of dedicated public servants we shall be reminded of "Cliff" Thompson.

Vernon Robinson resigned as Public Health Officer in December of 1965. The State of New Hampshire on the recommendation of this Board appointed Mr. Elmer Milliken of Pleasant Street to fill the vacancy in January of 1966. Mr. Milliken is a retired construction superintendent and should prove to be an excellent replacement.

In January 1965, the Board accepted with regret the resignation of Chief Jerry Lambert of the Village Fire Department. Mr. Lambert had served as Chief of the Department for twenty years and certainly his resignation created a void that would be difficult to fill and after much thought and deliberation the board decided to offer the appointment to fill the vacancy to Alfred Collette who was Deputy-Chief under Chief Lambert. Mr. Collette accepted the appointment and as of now appears to be doing an excellent job. On behalf of the people of Hooksett, the Selectmen at this time wish to extend to Chief Jerry Lambert thanks and appreciation for a job well done.

We wish to commend Mr. Bernard Zapora and the excellent men of his department who have done such a tremendous job in the maintenance of our highways and collection of rubbish. They have certainly done their share in making Hooksett a better place in which to live.

Our Fire Departments and Police Department have carried on with their usual efficiency and workmanlike attitude in their effort to provide good protection for life and property within the Town.

William Shackford, the Director of Civil Defense has proven himself to be exceptionally fine as a public servant. His administration of the office he holds leaves nothing to be desired.

As we prepare to close this report, we wish to extend our thanks and appreciation to all Board and Commission members and to all elected officials of the town whose cooperation and dedicated devotion to duty have contributed so much in making this year 1965 one of the most remarkable in the history of our Town.

Sincerely yours,

Oscar Morin Jr.
James G. Follansbee
Leslie M. Pike

P.S.: Town Meeting will be held March 8, 1966 at the Hooksett Memorial School. Polls for voting will open at 10:00 A.M. Articles of the 1966 Warrant will be acted upon at 7:00 P.M. of the same day.

National Legion Commander Donald Johnson, center, receiving key to town of Hooksett from Oscar Morin Jr. Selectman as Leo Belisle, left, N. H. State Commander looks on.

REPORT OF THE BUDGET COMMITTEE

GENERAL COMMENTS:

In order for the Town of Hooksett to maintain and improve the facilities and services available to its residents in this age of increased living costs, it is necessary to continually increase the overall budgets. The goal of this Committee in 1966 is to provide all departments with the funds necessary to provide the best possible service, but also to keep the total budget down to a level which would necessitate no more than a very small increase in the tax rate or no increase at all. In a growing community, such as Hooksett, a stable tax rate which is not excessive, by comparison to surrounding cities and towns, is very important if the town is to attract industry and new families to settle within its boundaries.

Although exact figures relative to total assessed property valuation for 1966 will not be available for several months it was estimated that new commercial and residential property would provide approximately \$60,000. in new tax revenue, computed at the 1965 rate. The Committee, with the help of all of the Town department heads, has attempted to keep the overall increase in the total budget as close to that figure as we considered practical under the circumstances.

Because the Committee, in future years, will be faced with the same weighty problem we would like to present the following general recommendations for consideration. We feel that if all or some of these recommendations are adopted, it will assist the Committee and the "Town Fathers" in maintaining a stable, yet realistic tax rate.

1. All Department Heads should consider adding a "Capital Reserve" item to their individual budgets in

order to provide funds for the future replacement or addition of equipment necessary to the efficient operation of their department. A "Capital Reserve" fund is not spent each year but rather is accumulated to provide either for the outright purchase of equipment or to meet payments on a very large equipment acquisition without having to tax the residents of the Town for such a purchase in a single year. This recommendation is of extreme importance to departments such as Fire, Highway or Water Precincts where individual pieces of equipment are often quite high in cost.

2. If practical and possible, some savings in spending might be derived by forming a Central Purchasing Dept. to buy certain basic supplies or equipment used by more than one department and purchased separately at the current time by each department. Volume purchasing has been proven to result in savings and it would be wise for the town to try to take advantage of that fact where practical.

3. It has been found to be increasingly difficult for the Committee to complete its work during the usual time allotted. This year, it was necessary to hold seven meetings, many of which lasted over four hours, in order to fairly consider all facets of each budget. We recommend that the School Budget be provided to the Committee as early in January as possible because it is the longest and most difficult to resolve. Because the School District year ends on June 30, this should cause no hardship to the School Board. In addition, we recommend that Department Heads and others proposing large, unusual expenditures notify the Committee early in the year to give them time to study the proposal thoroughly and make field trips, if necessary, to properly consider the proposal.

4. At future public hearings we hope that it will be possible to provide residents in attendance with copies of detailed budgets, expenditures, etc. in order that they might review and question items not clear to them.

TOWN BUDGETS

After all proposed budgets were submitted, it was determined that an increase over 1965 appropriations of approximately \$15,000, or 10 per cent had been requested. Increases in individual department budgets of \$1,000, or more are discussed below:

Town Officers Salaries - An increase of \$1,000, was requested and approved to provide for the expected increase in salary to the Tax Collector which is based upon a percentage of the revenue raised by taxes.

Elections and Registration - Due to the fact that 1966 is an "election" year an additional \$1,000. was requested and approved.

Police Department - A proposed budget of \$3,000. less than 1965 was submitted and approved as appearing adequate for 1966. In 1965 the additional funds were provided for the purchase of a cruiser and accessories.

Highway Department - Increases of \$2,500. each for Summer and Winter Maintenance were approved as necessary to provide for wage increases and a new truck. An additional \$1,000. was approved for Rubbish Collection as it was explained that the routes can no longer be covered in the usual time due to the increased residential population. An increase of \$1,000. was provided in the Resurfacing Budget in order to continue the department's program of upgrading the quality of the Town's streets and roads at the top speed possible.

Cemetery Department - An increase of \$3,200. was considered necessary to complete road grading and surfacing and to acquire a used truck necessary to efficiently maintain the Town's cemeteries.

Capital Reserve - In keeping with our recommendation relative to providing funds for future acquisition or replacement of equipment we approved an increase of \$1,000. in the Capital Reserve fund appropriation.

In order to keep our report at a minimum in length and yet as informative as possible we will discuss only the more important Articles of the Town Warrant in the following paragraphs.

Article 8 - Proposed Sewer Disposal System - The Committee unanimously approved the article because any other action on our part would have prevented or limited the action possible by the voters of the Town. A special public hearing is to be held in order to acquaint the public with all of the facts and figures, and in view of this it was felt that any information or recommendation by this Committee would be superfluous.

Article 13 - An Appropriation of \$4,000. for proposed participation in the Urban Planning Assistance Program. It was the feeling of the Committee that if the Town is to derive all possible benefits from State and Federal programs we should participate in this program.

Article 14 - Proposed acquisition of front-end loader - The need for this equipment was adequately explained by Mr. Zapora and the Selectmen but the article fails to make mention of the fact that the price should include a back-hoe attachment. It is our recommendation that the equipment be purchased at a figure not to exceed the proposed amount of \$24,000. but that the back-hoe attachment be included in the purchase.

Article 16 - In keeping with the past policy of providing new precincts with funds for study and survey purposes we approved the proposal that \$500. be provided to the new South Hooksett Water Precinct.

Article 17 - The proposal to erect a utility building at a cost of \$5,000. for the Little League Baseball Park is submitted without any recommendation by the Budget Committee. On one hand we felt that a rather large sum has been spent for this single recreation program

already, but conversely it doesn't appear sensible to stop short of providing complete facilities where such a large investment is already involved. As it was too late to suggest alternate methods to provide temporary storage and toilet facilities we felt it only fair to leave the final decision as to whether or not to approve this article with the voters of the Town.

WATER PRECINCTS

With the exception of a proposed appropriation of \$20,000. by Central Hooksett Water Precinct for the development of a new well site, the proposed budgets of the Hooksett Water Precincts changed very little from 1965. After a review of all items, all budgets and the appropriation for the new well site development were unanimously approved.

It is gratifying to see that our Water Commissioners are attempting to provide for future expansion of the town by careful planning in the present in order that the residents of Hooksett will not be faced with a serious water shortage in the future.

SCHOOL DISTRICT

The proposed 1966-67 budget, as submitted by the School Board, included increases over the 1965-66 budget of in excess of \$60,000. or approximately 15 per cent over the previous year. Presented below is a summary of the major increases proposed and comments as to the action taken by the Budget Committee after careful study and discussion of each item:

	Approximate Proposed Increase
200 Instruction	\$19,300.
600 Operation of Plant	2,400.
700 Maintenance of Plant	5,000.
800 Fixed Charges	3,600.
1200 Capital Outlay	7,000.
1300 Debt Service	21,000.
1477.5 Payments into Capital Reserve Funds	3,000.

(Although these items represent, in our opinion, the major changes which we had to study and consider there were many other increases and decreases you may wish to note by a careful review of the detailed School District Budget presented elsewhere in your Town Report)

200-Instruction - The major change in this category is due to a \$500 raise in salary proposed for all principals and teachers. Discussion and study of this item revealed that a part of the increase is due to the fact that the Town must raise its starting salary to stay in line with surrounding communities and the state average, and the balance represents the normal annual increase. After additional lengthy discussion it was decided that we should accept the School Board's recommendation in this area if we are to maintain the superior level of teaching ability we now have, so the item was approved without change.

600 - Operation of Plant - Increases in the custodians' salaries, heat and utility costs were considered necessary and were approved without change.

700-Maintenance of Plant - The increase in this category is caused by a proposal to improve the parking and play areas at the Underhill School, which has become necessary due to the new addition to that school this year. At our request, the School Board investigated the cost further and found that part of the necessary work could be contracted for about \$1,800, less than was originally estimated so we have decreased this item by \$1,800 in the budget.

800-Fixed Charges - The cost of social security and other retirement programs of the teachers has increased primarily due to the increase in the social security tax rate. The increases were approved without change as we can exert no control over the determination of these costs.

1200-Capital Outlay - The increase of \$7,000, in this area is due primarily to the proposed addition of the following items of equipment at the Underhill School:

- | | |
|-------------------------------------|------------|
| 1. Walk-in Freezer and Refrigerator | \$6,275.00 |
| 2. Stage Curtain | \$1,500.00 |

Even though the N. H. State school accounting system indicates that the acquisition of a freezer or refrigerator should be included in this budget category it was the opinion of this Committee that it would be better to postpone this acquisition until next year and present it as an article in the School Warrant which will be financed through borrowing and be repaid out of the Capital Reserve Fund, which should be adequate to cover the payments for this and other expected acquisitions. We, therefore, decreased this budget item by \$6,275, and recommend that it be requested next year as previously outlined. This decrease and our recommendation is in keeping with our comments at the beginning of this report relative to the stabilization of the tax rate through the use of the Capital Reserve Fund system. We feel that it is pertinent to point out that the acquisition of this item alone unless financed and paid for through Capital Reserve Funds could cause a fluctuation in the tax rate of nearly \$.50 based on the current estimate of Net Valuation of taxable property.

1300-Debt Service - This item represents the funds necessary for payment of outstanding principal and interest for school additions etc. already approved in past years and, therefore, the item was approved without change. The increase is explained as being due to the addition at Underhill School.

1477.5-Payments into Capital Reserve Funds - Although we are completely in favor of the use of this method to provide for acquisition of equipment, the purpose is defeated completely if the fund is built up in large fluctuating amounts. The School Board explained that it is felt that another school bus will be needed in the near future and that these funds are to provide for its purchase. After studying the problem, we are of the opinion that adequate funds will be available for this purpose if additions of only \$3,000, this year and a similar amount next year are made to the fund. Therefore we decreased this budget item from the proposed \$5,000, to \$3,000, and recommend that the School Board

attempt to increase payments into the fund on a more gradual basis.

Article 1 - Proposed increase in compensation for members of the School Board was unanimously approved by the Committee.

To summarize the action taken by the Budget Committee on the proposed School District Budget, the total was decreased by \$10,075, as explained above. We wish to point out that these reductions were made only after careful consideration of their effect on the school system as a whole and we ask that the Voters carefully review our comments when considering action on the Budget as recommended by this Committee.

It has been the desire of the Committee to perform a fair and impartial review of the 1966 Budgets and provide in our report any information and recommendations which will assist the voters in taking final action on the Budgets. It is our sincere hope that we have accomplished our goal.

We would like to express our thanks to the heads of the Town Departments and Water Precincts, the School Board and the Board of Selectmen for their cooperation and assistance.

Respectfully Submitted,

REVISED STATUTES ANNOTATED CHAPTER 252

SEWERS

252:4 CONSTRUCTION. The mayor and aldermen of any city may construct and maintain all main drains or common sewers which they adjudge necessary for the public convenience and health. Such drains and sewers shall be substantially constructed of brick, stone, cement or other material adapted to the purpose, and shall be the property of the city.

252:5 TAKING LAND. Whenever it is necessary to construct such main drains or common sewers across the land of any person the mayor and aldermen may lay out a sufficient quantity of such land for the purpose, and assess the owner's damages in the same manner as in the case of taking land for highways, and the owner shall have the same right of appeal, with the same procedure.

252:6 LEASES OF SEWAGE FACILITIES. The mayor and aldermen of any city may lease sewage facilities to or from any other city or town whenever they judge the same necessary for the public convenience and health.

252:7 INCONSISTENT CHARTER PROVISIONS REPEALED. The provisions of any city charter inconsistent with the provisions of this chapter are hereby repealed as to the extent of such inconsistency.

252:8 BY-LAWS AND ORDINANCES. In cities where the sewage is pumped or treated the mayor and aldermen may adopt such ordinances and by-laws relating to the system, pumping station, treatment plant or other appurtenant structure as are required for proper maintenance and operation. Any person willfully violating such ordinances or by-laws shall be fined not more than ten dollars for each day of violation after written notice to desist has been given.

ASSESSMENT FOR SEWERS

252:9 LEVYING. The mayor and aldermen may assess upon the persons whose drains enter such main drains or common sewers, or whose lands receive special benefit therefrom in any way, their just share of the expense of constructing and maintaining the same.

252:10 SEWER RENTALS. For the defraying of the cost of construction payment of the interest on any debt incurred, management, maintenance, operation, and repair of newly constructed sewer systems, including newly constructed treatment and disposal works, the mayor and aldermen may establish a scale of rents to be called sewer rents, and to prescribe the manner in which and the time at which such rents are to be paid and to change such scale from time to time as may be deemed advisable. Such rents may be based upon either the metered consumption of water on premises connected with the sewer system, making due allowances for commercial use of water, the number and kind of plumbing fixtures connected with the sewer system or the number of persons served by said sewer system, or upon any other equitable basis.

252:11 SEWER FUNDS. The funds received from the collection of sewer rentals shall be kept as a separate and distinct fund and shall be known as the sewer fund. Any surplus in such fund may be used for the enlargement or replacement of the sewerage system or the sewage disposal works, but shall not be used for the extension of sewerage systems to serve unserved areas or for any purpose other than those above specified.

252:12 LIEN FOR ASSESSMENTS OR RENTALS. All assessments under the provisions of sections 9 and 10 shall create a lien upon the lands on account of which they are made, which shall continue until one

year from October first following the assessment, and, in case an appeal has been taken and the assessment has been sustained in whole or in part upon such appeal, until the expiration of one year from such decision, whichever is later. Such assessments shall be subject to the interest and such other charges as are applicable to delinquent taxes.

252:13 COLLECTION OF ASSESSMENTS OR RENTALS. They shall be committed to the collector of taxes, with a warrant under the hands and seal of the mayor and aldermen requiring him to collect them; and he shall have the same rights and remedies and be subject to the same liabilities in relation thereto as in the collection of taxes.

252:14 ABATEMENT OF ASSESSMENTS. For good cause shown, the mayor and aldermen may abate any such assessment made by them or by their predecessors.

252:15 PETITION TO COURT. If they neglect or refuse to do so any person aggrieved may apply by petition to the superior court for relief at any time within ninety days after notice of the assessment, and not afterwards; and the court shall make such order thereon as justice may require.

252:16 CORRECTION OF ASSESSMENTS. If any error is made in any such assessment it may be corrected by the mayor and aldermen by making an abatement and a new assessment, or either, as the case may require; and the same lien, rights, liabilities and remedies shall attach to the new assessment as to the original.

252:17 ASSESSMENT INSTALLMENTS. The mayor and aldermen of any city may, in their direction, in making any assessment under this part, assess the same

to be paid in annual installments extending over a period not exceeding twenty years, and in such case their assessment so made shall create a lien upon the land on account of which it is made and the lien of each installment so assessed shall continue for one year from October first of the year such installment becomes due.

252:18 ASSESSMENT NOT REQUIRED. Nothing herein contained shall be construed to prevent any city from providing, by ordinance or otherwise, that the whole or a part of the expense of constructing, maintaining and repairing main drains or common sewers shall be paid by such city.

SEWER COMMISSIONS

252:19 ESTABLISHMENT; DUTIES. Any town or village district which adopts the provisions of this chapter may, at the time of such adoption or afterwards, vote to establish a board of sewer commissioners, consisting of three members, which board shall perform all the duties and possess all the powers in the town or district otherwise hereby conferred upon the selectmen.

252:20 ELECTION. At the annual town or district meeting when such board is established, there shall be chosen, by ballot and by major vote, three sewer commissioners, to hold office for three years, two years, and one year, respectively, and thereafter, at every annual meeting, one commissioner shall be so chosen to hold office for three years; provided, that such election shall be by plurality vote in towns or districts which, under existing laws, elect officers in that manner.

252:21 VACANCIES. Vacancies in the board, whether from failure to elect or otherwise, shall be filled in towns by the selectmen of the town, and in village districts by the commissioners of the district. Any member of the board so chosen to fill a vacancy shall hold office until the next annual meeting.

252:22 COMPENSATION. The compensation of such sewer commissioners shall be fixed in towns by the

selectmen, and in village districts by the commissioners of the district.

MISCELLANEOUS PROVISIONS

252:23 ENTERING WITHOUT PERMIT. Any person who digs or breaks up the ground in any street, highway, land or alley in any city, for the purpose of laying, altering, repairing or entering any main drain or common sewer therein, without permission from the mayor and aldermen, shall forfeit five dollars for each offense.

252:24 MALICIOUS INJURY; PENALTY. Any person who shall wantonly or maliciously injure any part of any sewer system or sewage disposal plant shall be fined not more than three hundred dollars, and be liable to pay treble damages to the owner thereof.

252:25 APPLICATION OF CHAPTER. The provisions of this chapter shall be in force in such town and village districts as may adopt the same; and the selectmen shall perform all the duties and possess all the powers in the town or the district, as the case may be, conferred by this chapter upon the mayor and aldermen, and the rights of all parties interested shall be settled in the same way.

Our Letter

Town of Hooksett, New Hampshire

BOARD OF SELECTMEN
BOX 688
HOOKSETT, N. H.

December 9, 1965

Merrimack County Commissioners
Court House
Concord, N. H.

Gentlemen:

We are now in the process of preparing the material to be included in our 1965 Town Report. It has been requested of this Board that a break down of funds levied by the County on the Town of Hooksett be included in the 1965 Report. We therefore, respectfully request the Commission to prepare a pro-rated analysis of the amount of \$95,623.82 which is the exact amount of Hooksett's share of the County tax. May we thank you in advance for your co-operation in this matter.

Sincerely yours,

W. P. M. Squire
Board of Selectmen

"APPRECIATION NIGHT was observed by residents of Hooksett at a program held at the Coachman Restaurant on the Daniel Webster Highway. Five persons received certificates of appreciation for their time and energy over and above the duties of their profession to help make Hooksett a better place to live in. From left are Edgar G. Bellerose, Suncook, who received an award for news reporting; Leslie M. Pike, a selectman; Oscar Morin Jr., chairman of the selectmen; Martin Ferry, Pembroke, engineer for the community and citation recipient; Stanley Szopa, Manchester, head of the Royal Press and an award recipient; James G. Follansbee, selectman, and Frank Morgenroth, senior partner in the Boston engineering firm of Morgenroth and Associates who received an award. (Ernest Gould Photo)

LIBRARY REPORT 1965

The Library has enjoyed its largest year in circulation. A total of 5572 books were loaned—an increase of 582 over the 1964 circulation. This does not take into consideration the usage of encyclopedia and reference books used in the Library. A total of 1131 books were on loan from the State Bookmobile and 35 books were direct loans from the State Library. Three hundred and eight [308] books were added to the collection. Some through purchase and some through generous gifts of interested townspeople.

The Womans' Club again gave a gift of \$100.00 which was used to purchase books. Looking ahead to the cataloging of all books, a typewriter was purchased. Two more storm windows were also installed. This year for the first time the Library was open on Wednesday evenings from 7-9 P.M., as well as on Saturday afternoons from 12-4 P.M. We plan to continue this practice except for the Summer months

It is becoming more evident each year that more space is needed in the Library, and it is hoped that this will be a future consideration of the town.

Evelyn Hawe, Librarian

Zoning Board Of Adjustment

Report for 1965

The Zoning Board of Adjustment is comprised of five members - Chairman; Adelard Gagnon, Guy Campbell, Paul Howe, Melvin Johnson and Gilbert Fay.

Twenty-eight requests for variance have been brought before the Zoning Board in 1965 (No. 128 through No. 155). It was necessary to hold a Public Hearing on May 18th and a Public Hearing on December 9th.

Fifteen renewal and special trailer permits have been applied for. These permits have to be applied for semi-annually. January 1 and July 1.

Six requests of lot variance have been applied for.

Four requests to install and maintain signs.

Two requests for the removal of top soil.

One request was made for changing zoning area regulations but was later withdrawn.

Zoning meetings are scheduled to be held on the third Tuesday of each month when there are requests to be brought before the Board. These meetings are held at the Conference Room of the Town Municipal Building.

Respectfully submitted

Dorothy M. Squire, Clerk

Planning & Developing Committee

Nine regular meetings of the Planning Board have been held since June of 1965. Due to the resignation of Oscar Marin Sr., Armand Roberge was appointed as Chairman with Warren Horvey as Co-Chairman. Other members of the Board include Roland Levesque, Ralph Page, Nelson Lambert, Leslie Pike and Albert Beauchesne.

Members of the Board have tried to change and promote SubDivision so that it will be accepted at Town Meeting of 1966. These changes have been made to make SubDivision beneficial to the Home Owner, Developer and Town of Hooksett.

Meetings also have been held with the Monchester Metropolitan Planning & Transportation Study, regarding proposed land study and expected growth and future needs of Hooksett. It is estimated that the population of Hooksett in 1985 will be between 8,500 to 10,000.

On November 4th, members of the Planning Board, Zoning Board, Conservation Commission, Board of Selectmen and Frank Morgenroth of Morgenroth Associates motored to Ware, Massachusetts to view the same type of sewerage treatment plant and sewer system which is being considered for Hooksett. Members of the Planning Board were favorably impressed.

Respectfully submitted,

Dorothy M. Squire, Clerk

Report Of The Road Agent

REPORT OF THE ROAD AGENT

To the Honorable Board of Selectmen and Citizens:

I herewith submit for your approval my third annual report as Road Agent for the year ending December 31, 1965.

RUBBISH COLLECTION

Rubbish pick-up has increased for these two reasons:

1. Increase in new homes and business establishments.
2. Due to extreme dry conditions all over the State, the ban on open fires and incinerators prevented the burning of rubbish.

The town dump is opened Thursdays, Fridays, and Saturdays, from 9:00 A.M. to 6:00 P.M. It is closed on all holidays.

Labor	\$7,232.91	Budget Appropriation	
Police & Fireguard	1,911.00	Refunds	\$11,000.00
Materials & Supplies	1,871.79		
Total	\$11,015.70		

WINTER MAINTENANCE

We have used 477 tons of sand and gravel and 150 tons of salt and 44 tons of cold patch and plant mixed asphalt, for the upkeep of town roads.

Labor	\$ 8,319.54	Appropriation	\$15,000.00

HOOKSETT SALVATION ARMY SERVICE UNIT REPORT

The Hooksett Salvation Army Service Unit has had another busy year, and thanks to the generosity of about 150 families and 10 business firms, we have been able to help those families in Hooksett who have had emergency needs.

We would like to thank everyone who so generously answered our appeal, and we give special thanks to the Hooksett Boy Scouts for the toys, (and the mothers who cleaned the toys); Hooksett Congregational Sunday School for the new Christmas gifts; Knights of Columbus for the large food basket; Deerhead Sportsmans Club for the check; and the YPF of Congregational Church for the many boxes of food collected; and cash to buy turkeys.

It has been difficult to bring home to the people of Hooksett the fact that our Service Unit is in Hooksett, and totally dependent on the generosity of the good people of our town for donations with which to carry on our work.

We are not part of a Salvation Army Corps, which is always located in a large city, nor can we wear an identifying uniform. However we do the same type of work as the big city Corps and we do need donations of money and the goods with which to carry on our work. The Annual Appeal and Christmas letters are our only means of raising money with which to help anyone in our town who has need of us.

This year the Manchester Salvation Army was contacted by a number of people wanting help for Hooksett

families. These calls were immediately referred to your Hooksett chairman, because Hooksett takes care of its own.

In one case, the Manchester JayCees heard about one of our unfortunate situations and called the Manchester Corps, who in turn gave them our number. After learning that we receive NO monetary help from Manchester or the Union Leader Fund Drive, they took a collection among themselves and turned it over to the Hooksett chairman to take care of the need. The Hooksett Service Unit is very grateful for the helping hand extended by this splendid organization outside of our own town.

We again want to thank all those who did their share this past year, and if you would beaf further help, you could let your friends and neighbors know about the Hooksett Service Unit, Salvation Army and how we work.

Help can be had by contacting Mrs. Esther O'Brien; Mr. Sidney Nichols; Mrs. Jasie Bean; Mr. James Fallonsbee; or Mr. and Mrs. Palmer Woodworth.

Never forget that, but for the Grace of God, anyone of us could be the one in need.

Beatrice Bourbeau, Secretary
Hooksett Service Unit,
Salvation Army

Total \$792.37

New equipment purchased consist of a chain saw and a
900 Watt generator.

William H. Shackford
Civil Defense, Director

Fellow citizens have you ever asked these questions?

Can Civil Defense in Hooksett care for my needs during
and after a nuclear attack?

The answer to this question is no, but this answer is not
any different than 95 per cent of all the communities
throughout the United States.

Your next question would be why and where does the
responsibility of our well being lie?

The responsibility of your family lies with you and every
individual to have the knowledge of being able to sur-
vive radiation fallout.

To have a home shelter stocked with the necessities to
sustain your family for 14 days.

What does our local Civil Defense unit do to help our
citizens prepare for this type of disaster?

1. It coordinates information from national and
state offices to local and town officials.
2. It initiates a warning system so that citizens may
get earliest possible notification of an impending
attack.
3. It makes available plans for each family to have
or construct a home shelter. A home shelter can
cost you from \$10.00 to any amount you may want
to spend.
4. It also gives educational facilities like medical
self help courses, Adult education classes, radio-
logical monitoring training, free to you for the ask-
ing.

Civil Defense has many more duties that it performs
too numerous to mention in this note.

Whether or not we like it we have to admit we live in
a nuclear age. Therefore it is our duty to understand
the dangers and prepare for the hazards that exist.

Same people care do you?

William H. Shackford
Civil Defense, Director

Hooksett Blaze

A Hooksett fire fighter battles a wind-fanned blaze that burned more than 30 acres between the Daniel Webster Highway and Pleasant Street in Hooksett yesterday. The Hooksett fire was one of more than 40 recorded in the state yesterday.

Nearly 40 Blazes

ANNUAL REPORT OF FOREST FIRE WARDEN 1965

The Town of Hooksett has answered nineteen (19) forest fire calls during 1965. A total of 40% acres was burned over.

The worst fire we had was the fire of November 4th, located between Pleasant Street and the Daniel Webster Highway. There were winds up to 80 miles per hour and a total of 30 acres was burned over before the fire was brought under control. It was necessary to have aid from Allenstown, Pembroke and Bow before this fire could be brought under control.

The total of Fire Permits issued was 215 for 1965.

AID TO OTHER TOWNS

FIRE DEPARTMENT NO. 1

1965

During the year 1965 this Department answered thirty eight alarms.

- 13 Brush and Forest Fires
- 5 House Fires
- 3 Chimney Fires
- 2 Flooded Oil Burners
- 1 For Rescue Boat for Capsized Boat in river
- 2 Truck Fires
- 6 Car Fires
- 3 Mutual Aid Fires (Buildings)
- 3 Calls for use of Resuscitator

During 1965 we have inspected the installation of 46 new oil burning heating equipment. Found three that did not pass inspection. We reinspected and found the requirements of the ordinance corrected.

We are proud to have received our new 750 G.P.M. Triple Combination Pumper that was voted for on March 9, 1965 at Town Meeting under Article 8. This pumper was tested and approved by the New Hampshire Board of Fire Underwriters.

At this time I would like to thank the Junior Firemen for the purchase of 3 safety belts at a cost of \$54.38 that was paid for out of their own funds. These belts are in back of the new pumper.

We also have graded and put asphalt paving in front of the fire building so now, we can wash our vehicles and also keep the building clean.

Respectfully submitted,

ALFRED COLLETTERTE
Fire Chief

Chief, Hooksett Fire Department #1
Hooksett, N. H.

Dear CHIEF.

I want to take this opportunity to commend you and the men of your department for the excellent performance in containing the fire which occurred in our office on Tuesday, December 14th.

The fact that damage was held to a minimum both from fire and water is a credit to the good work by the Fire Department.

Believe me, that fire could have been disastrous for us. Again, may I express my deep appreciation and thanks.

Sincerely,

HOOKSETT VILLAGE FIRE DEPARTMENT 1

Hooksett, New Hampshire

ANNUAL REPORT

In closing our records for 1965 it is noticed that a total of 54 alarms were received during the year. This is an increase of 13 alarms over the previous year. A comparison of other data shows that:

	1965	1964
Value of property involved amounted to	\$129,800.00	\$76,400.00
Loss on this property amounted to	700.00	8,650.00
and required total manhours of	885	857

It was with regret that the Department accepted the retirement application of Lieutenant Hendrick Kate. Lieutenant Kate served the department for almost 20 years. In appreciation of this service he was presented a plaque mounted retirement badge at the regular meeting of November 1965.

The resignation of three other members was accepted during the year, Mbr Frederick Jackson who relocated in Vermont; Mbr Harry R. Schueler who transferred to Ohio; and Mbr Robert Silkman who has enlisted in the United States Air Force.

To fill these openings four new members were appointed. After completing the prescribed training course Richard Morin, Gerard Labore, Richard Perun and Darryl Wagner were accepted as regular members effective December 13, 1965.

The Department became the recipient of a Hand Hose Expander during the year. This item was purchased by the Ladies Auxiliary at a cost of \$130.00 and donated to the Department. The expander which is a tool used to replace couplings on fire hose is complete with 3/4", 1", 1 1/2" and 2 1/2" segments. The Department wishes again to express its thanks to the Ladies Auxiliary.

In continuing our work on the training site located next to the station, the area was completely leveled during the year and it is hoped to have a six inch layer of crushed gravel put in this coming year. Completion of this project will also serve to improve the general landscape of the station grounds.

In accordance with the New Hampshire Statutes, Chapter 251 Laws of 1947 a total of 61 new power oil burner installations were inspected during the year. 21 of these did not meet the requirements of the ordinance and required additional work by the installer so as to meet the required standards.

The Town of Hooksett continues to show a considerable increase in population year after year so in closing our report, we would like to take this opportunity to invite townspeople to visit the fire station and look over the fine equipment available for the protection of their property. The station is open for inspection on Friday evenings and Sunday afternoons.

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

HOOKSETT POLICE DEPARTMENT
1965

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless acts. It is up to each one of us to be ever mindful that a spark or flame is a potential fire.

WE MUST ALL BE CAREFUL:

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn rubbish or brush:
 - a. Always get a permit to burn from the warden.
 - b. Start your fire late in the day after 5:00 PM.
 - c. If burning a field or brush have equipment and adequate help on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreds of acres of destroyed woodlands. Yours never to enjoy.

DIVISION OF MUNICIPAL ACCOUNTING

STATE TAX COMMISSION

Concord, New Hampshire

SUMMARY OF FINDINGS AND RECOMMENDATIONS

February 17, 1966

Board of Selectmen

Hooksett, New Hampshire

Gentlemen:

Submitted herewith is the report of the annual examination and audit of the accounts of the Town of Hooksett for the fiscal year ended December 31, 1965, which was made by this Division in accordance with the vote of the Town. Exhibits as hereafter listed are included as part of the report.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk, Library, Municipal Court and Trustees of Trust Funds.

FINANCIAL STATEMENTS

Comparative Balance Sheets - December 31, 1964 - December 31, 1965:
(Exhibit A-1)

Comparative Balance Sheets as of December 31, 1964 and December 31, 1965, are presented in Exhibit A-1. As indicated therein, the Net Debt decreased by \$6,447.56 in 1965.

Analysis of Change in Financial Condition: (Exhibit A-2)

An analysis of the change in financial condition of the Town during the year is made in Exhibit A-2, with the factors which caused the change indicated therein. These were as follows:

Decrease in Net Debt

Net Budget Surplus	\$12,199.47
Notes Paid	12,800.00
Tax Collector's Excess Credit	<u>4.60</u>

\$25,004.07

Increase in Net Debt

Long Term Notes Issued	\$18,500.00
Decrease in Town Clerk's	
Cash on Hand	26.70
Tax Liens Transferred to Tax Deeds	<u>29.81</u>

18,556.51

Net Decrease

\$ 6,447.56

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits A-3 & A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1965, are presented in Exhibits A-3 & A-4. As indicated by the budget summary (Exhibit A-4), a revenue surplus of \$8,720.54, plus a net unexpended balance of appropriations of \$3,478.93, resulted in a net budget surplus of \$12,199.47.

Summary Statement of Receipts and Expenditures: (Exhibit B-1)

A summary statement of receipts and expenditures for the fiscal year ended December 31, 1965, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1965, is indicated in Exhibit B-2.

Statement of Indebtedness: (Exhibit H)

A statement of outstanding long term indebtedness as of December 31, 1965, showing annual debt service requirements, is contained in Exhibit H.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from

statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

GENERAL COMMENTS

Current Surplus:

The current surplus (excess of total assets over current liabilities) increased by \$12,147.56, from \$6,505.77 to \$18,653.33 in 1965, as shown herewith:

	<u>December 31, 1964</u>	<u>December 31, 1965</u>
<u>Total Assets</u>	\$251,174.07	\$287,594.10
<u>Current Liabilities</u>	<u>244,668.30</u>	<u>268,940.77</u>
<u>Current Surplus</u>	\$ 6,505.77	\$ 18,653.33
	<u>=====</u>	<u>=====</u>

Conclusion:

The provisions of Chapter 184, of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Hooksett for their assistance during the course of the audit.

Yours very truly,

Harold G. Fowler

Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the Town of Hooksett for the fiscal year ended December 31, 1965. In our opinion, the Exhibits included herewith reflect the true financial condition of the Town on December 31, 1965, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,

Harold G. Fowler

SUBDIVISION REGULATIONS

**PROPOSED BY
TOWN PLANNING BOARD**

PUBLIC HEARINGS

January 20, 1966 - 7:30 Memorial School

February 17, 1966 - 7:30 Memorial School

The Subdivision Regulations will be submitted to the voters of Hooksett on March 8, 1966, on the official Town ballot. The town clerk will place the following question on the ballot --

Shall the Subdivision regulations as proposed by the Planning Board be adopted for this Town?

Yes ☐

No ☐

AUTHORITY.

SUBDIVISION ORDINANCE for the Town of Hooksett, New Hampshire.

1. TOWN PLANNING BOARD.

The Town planning board is hereby authorized and empowered to approve or disapprove plats showing streets, or the widening thereof, or parks. The Town Clerk shall forthwith file with the register of deeds of Merrimack County a certificate showing that the planning board has been so authorized, setting forth the date of such authorization.

2. FILING OF PLATS.

No plat showing the layout of any highway or street upon private property or of building lots in connection with or in relation to such highways or streets within the municipality shall hereafter be filed or recorded in the offices of the register of deeds until it has been approved by the planning board, and such approval has been indorsed in writing on the plat. After such plat is approved and filed, the streets and parks shown thereon shall be and become a part of the official map of the municipality. The filing or recording of a plat without such approval shall be void.

3. REGULATIONS GOVERNING SUBDIVISIONS.

Before exercising the powers hereby granted, the planning board shall adopt regulations governing the subdivisions of land within the municipality. All such regulations shall be published as provided by law, and before adoption, a public hearing shall be held thereon. A copy of the regulations as adopted, signed by the chairman of the planning board, shall be filed with the register of deeds. Such regulations may be amended, changed, altered, added to, or rescinded whenever the planning board deems such action necessary or advisable, but only following public hearing on the proposed amendment, change, alteration, addition, or rescission, and a statement, signed by the chairman of the planning board, indicating any variances thus authorized from such regulations as were previously filed, shall be transmitted to the register of deeds.

4. PROTECTIVE REGULATIONS.

Such regulations may provide against such scattered or premature subdivision of land as would involve danger or injury to health, safety or prosperity by reason of the lack of water supply, drainage, transportation, or other public services, or necessitate an excessive expenditure of public funds for the supply of such services. Such regulations may provide for the harmonious development of the municipality and its environs; for the proper arrangement and co-ordination of streets within the subdivision in relation to other existing or planned streets or with features of the official map of the municipality and its environs; for the proper arrangement and co-ordination of streets within the subdivision in relation to other existing or planned streets or with features of the official map of the municipality; for open spaces of adequate proportions and for suitable-located streets of sufficient width to accommodate existing and prospective traffic and to afford adequate light, air, and the access of firefighting apparatus and equipment to buildings, and be co-ordinated so as to compose a convenient system. The regulations of the board may require in proper cases that plats showing new streets or narrowing or widening thereof submitted to it for approval shall show a park or parks suitably located for playground or other recreational purposes; they may require that proposed parks shall be of reasonable size for neighborhood playgrounds or other recreation uses, and that the land indicated on plats submitted shall be of such character that it can be used for building purposes without danger to health; they may prescribe minimum widths, depths, and areas of lots so as to avoid congestion of population and generally may include provisions which will tend to create conditions favorable to health, safety, convenience, or prosperity.

5. GRADING, IMPROVEMENT AND UTILITIES.

Such regulations of the planning board may stipulate, as a condition precedent to the approval of the plat, the extent to which and the manner in which streets shall be graded and improved and to which water, sewer, and other utility mains, piping, connections, or other facilities shall be installed. The regulations or practices of the planning board may provide for the tentative approval of the plat before such improvement and installations have been constructed but any such tentative approval shall not be entered on the plat. Such regulations may provide that, in lieu of the com-

pletion of such work and installations previous to the final approval of a plat, the planning board may accept a bond, in an amount and with surety and conditions satisfactory to it, providing for and securing to the municipality the actual construction and installation of such improvements and utilities within a period specified by the planning board and expressed in the bond. Such regulations may provide, in lieu of the completion of such work and installations previous to the final approval of a plat, for an assessment or other method whereby the municipality is put in an assured position to do said work and make said alterations at the cost of the owners of the property within the subdivision.

6. APPROVAL OR DISAPPROVAL BY PLANNING BOARD.

The planning board shall consider any Plat submitted to it within thirty days and shall act to approve or disapprove thereof within ninety days; otherwise such plat shall be deemed to have been approved, and the certificate of the municipality, as to the date of submission of the plat for approval and failure to take action thereon within such time, shall be issued on demand and shall be sufficient in lieu of the written indorsement or other evidence of approval herein required; provided, however, that the applicant for the board's approval may waive this requirement and consent to an extension of such period. The Town Clerk shall issue in behalf of the municipality the certificate of failure on the part of the planning board to take action aforesaid. In case of disapproval of any plat submitted, the ground for such disapproval shall be adequately stated upon the records of the planning board. Any plat submitted to the planning board shall bear the name and address of the person to whom notice of a hearing shall be sent; and no plat shall be acted on by the planning board without affording a hearing thereon. Notice shall be sent to the said address by registered mail, with return receipt requested, stating the time and place of such hearing, not less than five days before the date fixed therefor.

7. ACCEPTANCE OF PLATS.

Approval of a plat shall not be deemed to constitute or effect an acceptance by the municipality or the public of the dedication of any street or other ground or open space shown upon the plat.

The municipality shall not hereafter accept, lay out, open, improve, grade, pave, or light any street or lay or authorize the laying of water mains, sewers, connections, or other facilities or utilities in any street, within any portion of the municipality unless

such street (a) shall have been accepted or opened as, or shall otherwise have received the legal status of a public street prior to the conferring of plating jurisdiction upon the planning board, or unless such street (b) correspond in its location and lines with a street shown on the official map or with a street shown on a subdivision plat approved by the planning board, or with a street on a street plat made by and adopted by the board. The Town may, however, accept, locate and construct any street not shown on or not corresponding with a street on the official map or an approved subdivision plat or an approved street plat, provided the petition for the accepting, locating and construction of such street be first submitted to the planning board for its approval, and, if approved by the board, be approved by a majority vote of the Board of Selectmen, or if disapproved by the planning board, be approved by a majority of the legal voters present and voting at a regular or special Town Meeting. A street approved in such a manner shall thereupon have the status of an approved street as fully as though it had been originally shown on the official map or on a subdivision plat approved by the planning board, or had been originally platted by the planning board.

8. NEW ERECTIONS AND PERMITS.

No building shall hereafter be erected on any lot within any part of the municipality nor shall a building permit be issued therefor unless the street giving access to the lot upon which such building is proposed to be placed (a) shall have been accepted or opened as or shall otherwise have received the legal status of a public street prior to the granting of plating jurisdiction to the planning board, or unless such street (b) correspond in its location and lines with a street shown on the official map or with a street on a subdivision plat approved by the planning board or with a street on a street plat made by and adopted by the planning board or with a street located and accepted by the board of Selectmen, after submission to the planning board, and in case of said planning board's disapproval, by the favorable vote of a majority of the legal voters present and voting at a regular or special Town Meeting. Whenever the enforcement of the provisions of this paragraph would entail practical difficulty or unnecessary hardship, and where the circumstances of the case do not require the building, structure, or part thereof to be related to existing or proposed streets, the applicant for such permit may appeal from the decision of the Selectmen to the Board of adjustment. In passing such an appeal, after public hearing, the board of adjustment may take

any reasonable exception and shall have the power to authorize or issue a permit, subject to such conditions as it may impose, where the issuance of the permit would not tend to distort the official map or increase the difficulty of carrying out the master plan upon which it is based.

9. SALE OF SUBDIVISIONS.

Whoever, being the owner or agent of the owner of any land located within a subdivision, transfers or sells any land by reference to, or exhibition of, or by other use of, a plat of a subdivision, before such plat has been approved by the planning board and recorded or filed in the office of the register of deeds shall forfeit and pay a penalty of one hundred dollars for each lot or parcel so transferred or sold; and the description by metes and bounds in the instrument of transfer or other document used in the process of selling or transferring shall not exempt the transaction from such penalties.

10. SAVING CLAUSE.

If any provision of this ordinance is declared unconstitutional or the application thereof to any person or circumstances is held invalid, the validity of the remainder of the ordinance and application to other persons or circumstances shall not be thereby affected.

SUBDIVISION REGULATIONS

1. DEFINITIONS:

For the purpose of these regulations, which shall be known as and may be cited as The Town of Hooksett Subdivision Regulations, certain words used herein are defined as follows:

A. Subdivision

The term "subdivision" means the division of a parcel of land into two or more lots or parcels for the purpose of transfer of ownership or building development, or, if a new street is involved, any division of a parcel of land; provided that a division of land for agricultural purposes into lots or parcels of five acres or more and not involving a new street shall not be deemed a subdivision. The term includes resubdivision and, when appropriate to the context, shall relate to the process of subdividing or to the land subdivided.

B. Streets:

The term "street" means a way for vehicular traffic, whether designated as a street, highway, thoroughfare, parkway, throughway, road, avenue, boulevard, land, place, or however otherwise designated.

II. PROCEDURE.

A. Pre-application Procedure

1. Prior to the filing of an application for conditional approval of the Preliminary Plat, the sub-divided shall submit to the Planning Board and simultaneously, to the Water Board of the appropriate Water Department, if the sub-division is within or adjacent to the service area of any water department within the Town, plans and data specified in Section V, or such lesser plans and data as the Planning Board may in its discretion require in cases of sub-divisions of a simplified nature involving a minimum number of Lots. In all cases the information required shall be sufficient for the Planning Board to determine that the sub-division, including possible future developments related thereto, shall not violate the spirit of this Ordinance. This step does not require formal application or filing of plat with either the Planning Board or the Water Department involved.

2. Within 30 days the Planning Board shall inform the subdivident whether or not the plans and data as submitted, or as modified meets the objectives of these regulations. When the Planning Board finds the plans and data do not meet the objectives of these regulations it shall express its reasons therefor.

3. Within 30 days the Water Board, where such board is involved under A-1 above, shall inform the subdivident and the Planning Board whether or not water will be available for the proposed subdivision and, if so, on what terms and conditions. In the event such Water Board shall fail to take the action required herein within 30 days, the Planning Board shall proceed on the basis that no public water service shall be available for the subdivision under consideration.

B. Procedure for Conditional Approval of Preliminary Plat.

1. On reaching conclusions, informally as recommended in A above, regarding his general program and objectives, the Subdivident shall cause to be prepared a Preliminary Plat, together with improvement plans and other supplementary material as specified in Section V, or by the Planning Board under Section A-1.

2. Four copies of the Preliminary Plat and supplementary material specified shall be submitted to the Planning Board with written application for conditional approval at least seven days prior to the meeting at which it is to be considered. At the same time as such material is submitted to the Planning Board, two copies of such Preliminary Plat and supplementary material shall be submitted to the appropriate Water Board, if it is determined under A. above, that public water service shall be available to the subdivision under consideration.

3. No plat, so submitted, shall be acted on by the Planning Board without affording a hearing thereon. Notice shall be sent to the Subdivident by certified mail, with return receipt requested, stating the time and place of such hearing, not less than five days before the date fixed therefor.

4. Following (a) review of the Preliminary Plat and other material submitted for conformity thereof to these regulations, (b) review of the report of the appropriate Water Board, if any is involved, and its requirements and suggestions and (c) negotiations with the Subdivident on changes deemed advisable and the kind and extent of improvements to be made by him, the

Planning Board shall, within 90 days, act thereon as submitted, or modified, and if approved, the Planning Board shall express its approval as Conditional Approval and state the conditions of such approval, if any, or if disapproved, shall express its disapproval and its reasons therefor.

5. The action of the Planning Board shall be noted on two copies of the Preliminary Plat, referenced and attached to any conditions determined. One copy shall be returned to the Subdivident and the other retained by the Planning Board. The action of the appropriate Water Board, where required, shall be noted on its two copies of the Preliminary Plat, together with its requirements for service to the subdivision and a layout of the pipe line and appurtenances to be installed. One copy shall be returned to the subdivident and the other retained by the Water Board.

6. Conditional Approval of a Preliminary Plat shall not constitute approval of the Final Plat. Rather it shall be deemed an expression of approval to the layout submitted on the Preliminary Plat as a guide to the preparation of the Final Plat which will be submitted for approval of the Planning Board and for recording upon fulfillment of the requirements of these regulations and the conditions of the Conditional Approval, if any.

C. Procedure for Approval of Final Plat

1. The Final Plat shall conform substantially to the Preliminary Plat as approved, and, if desired by the Subdivident, it may constitute only that portion of the approved Preliminary Plat which he proposes to record and develop at the time, provided, however, that such portion conforms to all requirements of these regulations, and the requirements of the appropriate Water Department, if any is involved.

2. Application for approval of the Final Plat shall be submitted in writing to the Planning Board at least seven days prior to the meeting at which it is to be considered.

3. Eight copies of the Final Plat and other exhibits required for approval shall be prepared as specified in Section V, or by the Planning Board under Section A-1; five of said copies shall be submitted to the Planning Board and three of said copies shall be submitted to the appropriate Water Board, if any, within 12

months after approval of the Preliminary Plat; otherwise such approval shall become null and void unless an extension of time is applied for and granted by the Planning Board.

III. DESIGN STANDARDS

A. Streets

1. The arrangement, character, extent, width, grade and location of all streets shall be considered in their relation to existing and planned streets, to topographical conditions, to public convenience and safety, and in their appropriate relation to the proposed uses of the land to be served by such streets.

2. The arrangement of all streets in a subdivision shall either:

- a. Provide for the continuation or appropriate projection of existing principal streets in surrounding areas; or
- b. Conform to a plan for the neighborhood approved or adopted by the Planning Board to meet a particular situation where topographical or other conditions make continuance or conformance to existing streets impracticable.

3. Residential streets shall be laid out that their use by through traffic will be discouraged.

4. Where a subdivision abuts or contains an existing or arterial street, the Planning Board may require marginal access streets, reverse frontage with screen planting contained in a nonaccess reservation along the rear property line, deep lots with rear service streets, or such other treatment as may be necessary for adequate protection of residential properties and to afford separation of through and local traffic.

5. Where a subdivision borders on or contains a railroad right-of-way or limited access highway right-of-way, the Planning Board may require a street approximately parallel to and on each side of such right-of-way, at a distance suitable for the appropriate use of the intervening land, as for park

purposes in residential districts, or for commercial or industrial purposes in appropriate districts. Such distances shall also be determined with due regard for the requirements of approach grades and future grade separations.

6. Reserve strips controlling access to streets shall be prohibited except where their control is definitely placed in the Town under conditions approved by the Planning Board

7. Street jogs with centerline offsets of less than 125 feet shall be avoided

8. A tangent at least 100 feet long shall be introduced between reverse curves on all streets.

9. When connecting street lines deflect from each other at any one point by more than ten degrees, they shall be connected by a curve with a radius adequate to insure a sight distance of not less than 200 feet in all cases, and of such greater radius as the planning board shall determine for special cases.

10. Streets shall be laid out so as to intersect as nearly as possible at right angles and no street shall intersect any other street at less than 60 degrees.

11. Property lines at street intersections shall be rounded with a radius of ten feet, or of a greater radius where the Planning Board may deem it necessary. The Planning Board may permit comparable cut-offs or chords in place of rounded corners.

12. All street rights-of-way shall be not less than fifty (50) feet in width, except where the Planning Board shall require a different width for good cause shown.

13. Half streets shall be prohibited, except where essential to the reasonable development of the subdivision in conformity with the other requirements of these regulations; and where the Planning Board finds it will be practicable to require the dedication of the other half when the adjoining property is subdivided. Wherever a half street is adjacent to a tract to be subdivided, the other half of the street shall be platted within such tract.

14. Dead-end streets, designed to be so permanently, shall

not be longer than 500 feet and shall be provided at the closed end with a turn-around having an outside roadway diameter of at least 100 feet, and a street property line diameter of at least 120 feet.

15. No street names shall be used which will duplicate or be confused with the names of existing streets. Street names shall be subject to the approval of the Planning Board.

16. Street grades, wherever feasible, shall not exceed 10%, with due allowance for reasonable vertical curves.

17. No street grade shall be less than 0.50 percent.

B. EASEMENTS

1. Easements across lots or centered on rear or side lot lines shall be provided for utilities where necessary and shall be at least 12 feet wide, and such additional width as the Planning Board may require.

2. Where a subdivision is traversed by a water course, drainage way, channel, or stream, there shall be provided a storm water easement or drainage right-of-way conforming substantially with the lines of such water course, and such further width or construction, or both, as will be adequate for the purpose. Parallel streets or parkways may be required in connection therewith.

C. BLOCKS

1. The lengths, widths and shapes of blocks shall be determined with due regard to:

- a. Provision of adequate building sites suitable to the special needs of the type of use contemplated.
- b. Zoning requirements as to lot sizes and dimensions.
- c. Needs for convenient access, circulation, control and safety of street traffic.
- d. Limitations and opportunities of topography.

2. Block lengths shall not exceed 1,000 feet, or be less than 500 feet.

3. Pedestrian crosswalks, not less than ten feet wide, shall be required where deemed essential to provide circulation, or access to schools, playgrounds, shopping centers, transportation, and other community facilities.

D. Lots

1. The lot size, width, depth, shape, and orientation, and the minimum building setback lines shall be appropriate for the location of the subdivision and for the type of development and use contemplated.

2. Lot dimensions shall conform to the area requirements of Article IV B, of the Hooksett Zoning Ordinance, and in addition:

- a. Depth and width of properties reserved or laid out for commercial and industrial purposes shall be adequate to provide for the off-street service and parking facilities required by the type of use and development contemplated.

3. Corner lots for residential use shall have extra width to permit appropriate building setback from and orientation to both streets.

4. The subdividing of the land shall be such as to provide, by means of a public street, each lot with satisfactory access to an existing public street.

5. Double frontage, and reverse frontage lots, shall be avoided except where essential to provide separation of residential development from traffic arteries or to overcome specific disadvantages of topography and orientation. A planting screen easement of at least ten feet and across which there shall be no right of access, shall be provided along the line of lots abutting such a traffic artery or other disadvantageous use.

6. Side lot lines shall be substantially at right angles or radial to street lines.

E. Public Sites and Open Spaces

- 1. Where deemed essential by the Planning Board, upon consideration of the particular type of development proposed in the subdivision, and especially in large-scale neighborhood unit developments, the Planning Board may require the dedication or reservation of such areas or sites of a character, extent and location suitable to the needs of the development, of the Town for schools, parks, play-grounds or other neighborhood purposes.

IV REQUIRED IMPROVEMENTS

A. Monuments

1. Monuments shall be placed at all block corners, angle points, points of curves in streets, and at such intermediate points as shall be required by the Town Engineer. The monuments shall be granite and of such size and length as may be approved by the Town Engineer.

B. Utility and Street Improvements.

1. Grading and center line gradients: per plans and profiles approved by the Town Engineer.
2. Storm sewer system and other drainage improvements: per plans and profiles approved by the Town Engineer.
3. Public water, where available, per specifications of Water Department.
4. Public sewer, where available, per specifications of the Town Engineer.
5. Streets within development: Cross sections as determined by Town Engineer and the Planning Board. All streets shall have a 50 foot right of way, with 40 feet of pavement, including curb, if installed, unless otherwise provided by the Planning Board under III A (12) supra.

6. Streets along development boundaries, and streets connecting development with existing improved street system; Cross sections as determined by Town Engineer and Planning Board.

7. Curb: Not required, but where installed, at the option of the developer, shall be concrete of 3000 lb. mix, with expansion joints on eight foot centers.

8. Pavement:

a. Base - 6" to 8" of gravel, as required by the Town, and 4" of crushed bank run.

b. Surface - 1 1/2" of 5/8" Bituminous concrete, plant, mixed, as per Town specifications.

9. Side walks: Not required, but where installed, at the option of the developers, shall be surfaced with the same pavement required for streets.

10. Street trees per requirements of Planning Board.

11. Planting Strips: If required by the Planning Board to be in accordance with good seeding practices.

12. Whenever the Town Engineer finds that extraordinary physical conditions exist, he may vary the above requirements for utilities and street improvements, provided that such variation shall be in accordance with accepted engineering practices, and provided, further, that such variation will not have the effect of nullifying the intent and purposes of these schedules.

V. PLATS AND DATA

A. Pre-application Plans and Data

1. General Subdivision Information shall describe or outline the existing conditions of the site and the proposed development as necessary to supplement the drawings required below. This information may include data on existing covenants, land characteristics, and available community facilities and utilities; and information describing the subdivision proposal such as number of residential lots, typical lot width and depth, price range, business areas, playgrounds, park areas, and other public areas, proposed protective covenants and proposed utilities and street improvements.

2. Location Map shall show the relationship of the proposed subdivision to existing community facilities which serve or influence it. Include development name and location; main traffic arteries; public transportation lines; shopping centers; elementary and high schools; park and playgrounds; principal places of employment; other community features such as railroads, airports, hospital, churches, other public and semi-public buildings; title; scale; north arrow; and date.

3. Sketch Plan on topographic survey shall show in simple sketch form the proposed layout of streets, lots, and other features in relation to existing conditions. The sketch plan may be a free hand penciled sketch made directly on a print of the topographic survey. In any event the sketch plan shall include either the existing topographic data listed in B-1 below or such of these data as the Planning Board or appropriate Water Board, if its approval is required, determines is necessary for its consideration of the proposed sketch plan.

B. Plats and Data for Conditional Approval

1. Topographic Data required as a basis for the Preliminary Plat, in B-2 below, shall include existing conditions as follows except when otherwise specified by the Planning Board:

- a. Boundary lines: bearing and distances.
- b. Easements: location, width and purpose.
- c. Streets on and adjacent to the tract: name and right-of-way width and location; type, width and elevation of surfacing; any legally established center-line elevations; walks, curbs, gutters, culverts, etc.
- d. Utilities on and adjacent to the tract: location, size and invert elevation of sanitary, storm and combined sewers; location and size of water mains; location of gas lines, fire hydrants, electric and telephone poles, and street lights; if water mains and sewers are not on or adjacent to the tract, indicate the direction and distance to, and size of nearest ones, showing invert elevation of sewers.
- e. Ground elevations on the tract, based on datum plane approved by the Town Engineer; for land that slopes less than approximately two percent show spot elevations at all breaks in grade, along all drainage channels or swales, and at selected points not more than 100 feet apart in all directions; for land that slopes more than approximately two percent either show contours with an interval of not more than five feet if ground slope is regular and such information is sufficient for planning purposes, or show contours with an interval of not more than two feet if necessary because of irregular land or need for more detailed data for preparing plans and construction drawings.
- f. Subsurface conditions of the tract, if required by the Planning Board or Water Board; location and results of tests made to ascertain subsurface soil, rock and ground water conditions; depth to ground water unless test pits are dry at a depth of five feet; location and results of soil percolation tests if individual sewage disposal systems are proposed.

- g. Other conditions of the tract; water courses, marshes, rock outcrop, wooded areas, isolated preservable trees one foot or more in diameter, houses, barns, shacks, and other significant features.
 - h. Other conditions of adjacent land; approximate direction and gradient of ground slope, including any embankments or retaining walls; character and location of buildings, railroads, power lines, towers, and other nearby non-residential land uses or adverse influences; owners of adjacent unplatted land; for adjacent platted land refer to subdivision plat by name, recording date, and number, and show approximate percent built-up, typical lot size, and dwelling type.
 - i. Photographs, if required by the Planning Board: camera locations, directions of view and key numbers.
 - j. Zoning on and adjacent to the tract.
 - k. Proposed public improvements: highways or other major public improvements planned by public authorities for future construction on or near the tract.
 - l. Key Plan showing location of the tract.
 - m. Title and certificates: present tract designation according to official records in office of appropriate recorder; title under which proposed subdivision is to be recorded, with names and addresses of owners, notation stating acreage, scale, north arrow, datum, benchmarks, certificate of registered civil engineer or surveyor, date of survey.
2. Preliminary Plat shall be at a scale of 200 feet to one inch or larger (preferred scale of 50 feet to one inch). It shall show all existing conditions required above in B-1, Topographic Data, and shall show all proposals including the following:
- a. Streets: names; right-of-way and roadway widths; approximate grades and gradients.
 - b. Other rights-of-way or easements: location, width and purpose.
 - c. Location of utilities, if not shown on other exhibits.
 - d. Lot lines, lot numbers and block numbers.
 - e. Sites, if any, to be reserved or dedicated for parks, playgrounds, or other public uses.
 - f. Sites, if any for multifamily dwellings, shopping centers, churches, industry or other nonpublic uses exclusive of single family dwellings.
 - g. Minimum building setback lines.
 - h. Site data, including number of residential lots, typical lot size, and acres in parks, etc.
 - i. Title, scale, north arrow, and date.
3. Other Preliminary Plans. Where required by the Planning Board, or by the Water Board if one is involved, the Preliminary Plat shall be accompanied by profiles showing existing ground surface and proposed street grades, including extensions for a reasonable distance beyond the limits of the proposed subdivision; typical cross sections of the proposed grading, roadway and sidewalk; and preliminary plan of proposed sanitary and storm sewers with grades and sizes indicated. All elevations shall be based on a datum plane approved by the Town Engineer.
4. Draft of Protective Covenants whereby the subdivider proposes to regulate land use in the subdivision and otherwise protect the proposed development.
- C. Plats and Date for Final Approval
- 1. Final Plat shall be drawn in ink on tracing cloth on sheets 25 inches wide by 28 inches long and shall be at a scale of 100 feet to one inch or larger (preferred scale of 50 feet to one inch). Where necessary, the plat may be on several sheets accompanied by an index sheet showing the entire subdivision. For large subdivisions the Final Plat may be submitted for approval progressively in contiguous sections satisfactory to the Planning Board. The Final Plat shall show the following:

- a. Primary control points, approved by the Town Engineer, or descriptions and "ties" to such control points, to which all dimensions, angles, bearings and similar data on the plat shall be referred.
 - b. Tract boundary lines, right-of-way lines of streets, easements and other rights-of-way, and property lines of residential lots and other sites; with accurate dimensions, bearings or deflection angles, and radii, arcs, and central angles of all curves.
 - c. Name and right-of-way width of each street or other right-of-way.
 - d. Location, dimensions and purpose of any easements.
 - e. Number to identify each lot or site.
 - f. Purpose for which sites, other than residential lots, are dedicated or reserved.
 - g. Minimum building setback line on all lots and other sites.
 - h. Location and description of monuments.
 - i. Names of record owners of adjoining unplatted land.
 - j. Reference to recorded subdivision plats of adjoining platted land by record, date and number.
 - k. Certification by surveyor or engineer certifying to accuracy of survey and plat.
 - l. Certification of title showing that the applicant is the land owner.
 - m. Title, scale, north arrow, and date.
2. Cross Sections and Profiles of streets showing grades approved by the Town Engineer. The profiles shall be drawn to Town standard scales and elevations and shall be based on a datum plane approved by the Town Engineer.

3. A certificate by the Town Engineer certifying that the subdivider has complied with one of the following alternatives:

- a. All improvements have been installed in accordance with the requirements of these regulations and with the action of the Planning Board giving Conditional Approval of the Preliminary Plat, or
 - b. A bond or certified check has been posted, which is available to the Town and in sufficient amount to assure such completion of all required improvements.
 - c. An escrow agreement in a bank licensed by the State of New Hampshire, or the United States Government, certified by the Town Solicitor as valid and enforceable by the Town and in sufficient amount to assure such completion of all required improvements.
4. Warranty Deed conveying to the Town all streets, rights-of-way and any sites for public use in fee simple, free from all encumbrances.
5. Protective Covenants in form for recording.
6. Other Data: Such other conveyances, certificates, affidavits, endorsements, or deductions as may be required by the Planning Board in the enforcement of these regulations.

VI. VARIANCES

A. Hardship

Where the Planning Board finds that extraordinary hardships may result from strict compliance with these regulations, it may vary the regulations so that substantial justice may be done and the public interest secured; provided that such variation will not have the effect of nullifying the intent and purpose of these regulations.

B. Large Scale Development.

The standards and requirements of these regulations may be modified by the Planning Board in the case of a plan and program for a new town, a complete community, or a neighborhood unit, which in the judgement of the Planning Board provides adequate public spaces and improvements for the circulation, recreation, light, air, and service needs of the tract when fully developed and populated, and which also provide such covenants or other legal provisions as will assure conformity to and achievement of the plan.

C. Conditions

In granting variances and modifications, the Planning Board may require such conditions as will, in its judgement, secure substantially the objectives of the standards or requirements so varied or modified.

VII EFFECTIVE DATE.

These regulations shall become effective upon their passage and shall apply thereafter to all subdivisions within the Town of Hooksett, as defined in these regulations, except that they shall not apply to subdivisions for which plans are on file in the office of the Selectmen and which have been approved by the Board of Selectmen and Planning Board, under the Ordinances in force at the time of such approval, for a period of 12 months from such date of the passage of these regulations. At the expiration of 12 months from such date of passage all plans on file shall become null and void as to all portions of said plans not executed, that is those portions covering areas where no buildings have been constructed or no lots have been sold and no streets have been constructed, and new plans conforming to these regulations must be filed as provided herein.

CEMETERIANS COMMISSION REPORT FOR THE YEAR OF OUR LORD 1965

The year just ended was a problem year indeed; no humidity, high heat contributed greatly to our problems. Thanks, however, are in order to Mr. Ernest Gould who, through his knowledge, purchased the right kind of fertilizer, and we managed to keep the grass fairly green.

The Commission would like to comment on the sale or transfer of lots in our cemeteries. . .Note. . .No purchaser of a lot shall sell or convey the same without incorporating in the certificate of title by reference or otherwise all of the conditions, limitations and restrictions contained in the certificate of title to him or them and having such transfer made by the Cemetery Commission of the Town of Hooksett, upon payment of the prescribed transfer fee. This procedure is required in order that the Town of Hooksett may at all times have a complete record of lot owners. The Cemetery Commission may refuse to permit a transfer as long as there is any indebtedness due the Town of Hooksett from the record plot owner.

This year of 1965 at Martin's Cemetery we purchased hoses and sprinklers because of our new town water supply. We also purchased a Rotor Tiller so as to enable Commissioner Thompson to prepare roads in Martin's Cemetery that are dispensable and thereby give us more land for sale of graves. The main road at Martin's Cemetery was changed to go in a more northerly direction and a fence put up for protection and there, too, on the left hand side of said circular driveway will be room for more internments.

Our late Mr. T. Thompson had shown, as usual, a great aptitude in his cemetery planning. The loam that he purchased this year has been of an excellent quality.

Mr. Ernest Gould purchased tons of fertilizer for the care and upkeep of our cemeteries this year. This fertilizer also has been of a good quality because it had been mixed for local use, approved by the University of New Hampshire.

By clearing out portions of brush along the fences at Head's Cemetery, we have also extended our availability of graves.

We did not purchase any new mowers this year, the reason being last year's drought. However, we did have them repaired locally at Dunbar's Equipment Corporation.

On June 16th at 6:30 P.M. Oscar Marin, Leslie Pike, Martin Ferry, Bernard Zopora, Clifford Thompson, Ernest Gould, and Leo LaPlante met at Head's Cemetery in regards to staking out proposed road at cemetery's New Development. After doing this, all of us inspected the cemetery as a whole. The Selectmen were impressed with the entire picture and it is just that today. Suggestions were invited by Chairman LaPlante - amongst them was staking out a turn with 2" x 6' pipes at the southwestern section of the cemetery, near Kalat lot. Also mentioned was the addition of another truck for Martin's, where one is needed at all times, it being so far away from the three other cemeteries. Also, a

suggestion was made to have electricity installed at Head's Chapel. This has been done. A garage and maintenance shop, prefabricated, put up at Martin's is also a probability in the near future.

We have filled in many graves this year as we have in past years. We also bought loam for great parcels of land at Head's Cemetery and at Martin's Cemetery. This year we paved a circular road around Martin's Cemetery. We were lucky to have Manchester Paving Company do this work this year during one of their not so busy periods, and we had this road built at a very reasonable cost.

It is unfortunate that we have lost our good friend and great Commissioner, Clifford Thompson. He has paved the way for us to continue on to bigger and better projects for the Town of Hooksett. The Selectmen have appointed Mr. Hector Vincent, owner and manager of Dunbar Equipment Corporation, as Mr. Thompson's replacement. We of the Cemetery Commission truly believe that Mr. Vincent will be a most competent replacement on the Commission.

Respectfully and humbly yours,

Ernest Gould, Commissioner
Hector Vincent, Commissioner
Lionel F. LaPlante, Chairman of
Cemetery Commission

\$5,197.93

Board of Selectman
Hooksett, New Hampshire

Dec 11, 1965

Subject: Yearly report.

Dear Sirs:

The following is a summary report of my activity as Health Officer, in the Town Of Hooksett, N.H. for the year 1965.

(Child welfare cases inspected for the State. (6)

Several complaints were recieved as to cesspools overflowing, running into brooks, over and under roads, onto the abutters property causing land damage, most of these have been taken care of with the exception of a one Mr. Mann, on Main Street. This case is pending

Rubbish being dumped on the property of others. (3)

Mrs Mary C. Lefebvre, of 6 Cross Street, Hooksett, is complaining of a one Mr. Bryant, of Granite Street, Hooksett, throwing his rubbish over the embankment in the rear of his house causing it to fall down on the property of the above. This is not only a Health menace, it is a fire hazard. Mr. Bryant has been informed of the above conditions. Case pending.

Permits signed for F.H.A. approval for new homes for the installation of septic tanks and cesspools. (12)

(caused to have removed from town streets dead animals. (4)

Respectfully submitted,

Vernon H. Robinson

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District - in the Town of Hooksett qualified to vote in district affairs:

You are hereby notified to meet at the Hooksett Memorial School in said District on the 5th day of March 1966 at two (2) o'clock in the afternoon, to act upon the following subjects:

1. To see if the District will vote to raise the salary of each School Board Member by one hundred seventy-five dollars (\$175.00). (Inserted by petition)

2. To see if the District will vote to accept the provisions of Title I, Public Law 89-10 (Elementary and Secondary Education Act of 1965), and to appropriate such funds as may be made available to the District under said Federal Act for such particular projects as may be determined by the School Board. Further, to see if the District will authorize the School Board to make application for such funds and to expend the same for such projects as it may designate.

3. To see if the District will vote to accept the provisions of Title I, Public Law 89-10 (Elementary and Secondary Education Act of 1965), and to appropriate such funds as may be made available to the District under said Federal Act for such particular projects as may be determined by the School Board. Further, to see if the District will authorize the School Board to make application for such funds and to expend the same for such projects as it may designate.

4. To see if the District will authorize the School Board to accept on behalf of the District, all Federal or State Funds for the aid of Education or School Construction, should any such funds become available.

5. To see if the District will vote to accept the Budget as submitted by the Budget Committee, or take any other action in relation thereto.

6. To transact any other business which may legally come before said meeting.

Given under our hands and seal this 14th day of February, in the year of our Lord, Nineteen Hundred and Sixty-Six.

Arthur B. Sanborn
James E. Van Vliet
Gerard Handley

A true copy of Warrant - Attest:

Arthur B. Sanborn
James E. Van Vliet
Gerard Handley

Note: Election of District Officers will be held on Town Meeting Day.

SCHOOL BOARD REPORT FOR THE 1965-1966 SCHOOL YEAR

Enrollment for the 1965-66 School year has reached 726 pupils which is an increase of better than 5% over the 1964-65 School year. We foresee a steady increase in enrollments at all three Schools during the next five years, averaging 6% annually. By 1970 we anticipate a total enrollment of about 1,000 pupils.

To retain the close personal relationship between Teachers and Pupils which typifies all three Schools extra Teachers will be employed as needed to maintain a favorable Teacher to Pupil ratio.

The completion of the six new classrooms and auditorium begun in September of 1965 at the Underhill School will provide the District with the additional capacity needed to keep pace with the influx of new families into the South Hooksett area. The Auditorium will also provide additional facilities for the growing organizations within the Town whose need for after School and evening meeting space is increasing each year and will bring much needed relief to the present heavy demand for facilities at the Memorial School Auditorium.

Beginning with the first addition at the Village School in 1954, and continuing with the second addition at the Village School in 1956, the Underhill School in 1957, the Memorial School in 1961 and the new addition to the Underhill School in 1965 your School Board has had to devote the greatest portion of its time and energies either in planning for new buildings or to the actual construction of these new buildings, almost continuously during this eleven year period.

As a result a minimum of one meeting per month in 1954 has now grown to a minimum of one meeting per week during the School year necessitated by these increased enrollments and these increases in Plant capacities, sure signs of Hooksett's continued growth and development.

This involvement in Dollars and Cents, while necessary, has not allowed us the amount of time we would like in which to deliberate on the essence of Education and Children or the time to properly consider the problems of learning and the learning process. The greater Social and economic pressures on Children to do their best in School and the fast pace of the present "knowledge explosion" which has kept the Teachers on their toes has, however, helped us to cope with this very important part of our jobs as School Board Members.

We now look forward to much more time in which to look into the Drop-out problem, what is or is not being taught in our Schools, The Teacher training situation and time to inquire into methods and why certain subjects are or are not in the curriculum. In short we will spend much more of our time henceforth in evaluating the effectiveness of our whole School System.

We do not mean by this that we intend to plan a curriculum, or prescribe how a Teacher is to teach. We do expect to come to grips with learning problems and how to achieve the best results and we will welcome any suggestions. We sincerely feel that a cooperative effort such as this will make our jobs as School Board Members more meaningful and result in a better School system and a better Education for our Children.

Respectfully Submitted,

Arthur B. Sanborn

SUPERINTENDENT'S REPORT

Our present enrollment is 710 pupils, with over 750 expected next year. In the school year of 1961-62 we had 528 enrolled; this represents an annual gain of 36 pupils over a 5-year period. If these figures were shown in graphical form, there would be a steady rise from 1952-62, and a rather rapid rise from 1962-66. It appears that we will have classrooms enough for some time to come. The number of teachers required may be another matter.

Although the N.H. Education Association failed to get a minimum salary law of \$5,000 passed, it did create considerable thought on the matter with the result that some districts have adopted this minimum, and more are considering it. This is particularly true in the southeastern corner of New Hampshire, which must compete with Massachusetts and also finds itself in need of additional teachers due to a rapid growth in population. Practically speaking, Hooksett finds itself a part of this area and must be competitive.

As this is being written, school districts are voting on acceptance or rejection of federal aid to education, particularly Title I of Public Law 89-10. Hooksett is entitled to \$4,990, and we hope the district will vote to accept this amount. Although not a great amount, it will permit us to do some things for some pupils which we would not otherwise be doing. I believe this is important, and is, actually, the intent of the law. After all is said and done, we should be dedicated to doing the best we can for each individual pupil.

Federal Aid:

A brief summary of the newer aspects of Federal aid may be in order. This attempt will be inadequate at best, but may help to understand the basic ideas involved.

Title I gives most districts funds to improve educational opportunities for the "educationally deprived" pupil. The money available depends on economically deprived youngsters as determined from the 1960 census. In theory, there is a great variety of possible projects; in practice, only time will tell!

Title II allocates money to each supervisory union for library books and resources, and audio-visual supplies. This union has \$6500 for these purposes. All of these materials must be deposited in a central place and circulated among school districts as requested, much as a single book may be, but with longer loan periods permissible.

Title III is designed to encourage new ideas in education, to allow for experimental projects, and to encompass large areas. Some of these funds this year will be used for planning grants. Word has just been received that such a grant has been made to the Derry Co-operative School District to plan for a Psychological Service Center for Pre-School and Primary Grade Children for Rockingham County. Assistant Superintendents Ira Stickney of the Derry Union and Roland Schoepf of our office deserve credit for doing the lion's share of the work in preparing the application for this grant. We hope to see this planning grant fully implemented, and such a center established.

The funds under these three titles are "free and clear", and not matched by local funds.

Besides the above, Headstart Projects are still possible under the Office of Economic Opportunity. The planning for these is now at the county level. At the moment, we do not know whether or not we will have any pre-school projects this summer.

There are still funds under the National Defense Education Act for science, mathematics, language, and guidance. These funds must be matched by the local districts.

In the trials and tribulations of working with Federal funds, we are apt to forget that, under

PL 89-10, they must be used in addition to regular budgetary funds to do things which would not be otherwise done, and to increase the learning opportunities of children. As in all things human, not all plans will produce results, but who is to say that the effort should not be made? As can be seen from the brief descriptions above, the primary purpose of Federal aid is to make possible a variety of projects and approaches to increase the educational opportunities of all children, with special projects designed for the educationally deprived. In our anxieties of various kinds, we must not overlook the pupils and what may be done to improve their learning opportunities.

We have spent much time and effort in studying these titles, attending meetings, preparing projects, etc. Paper work varies from title to title, with Title III requiring 30 copies of the application! After all is said and done, we are in education to do the best we can for our pupils; this we have done, and will continue to do.

There is much ferment, research, and just "plain trial and error" in the field of education. Most of this within the field of education is aimed at improved learning opportunities for the pupils. Some of these things will prove to be good; others won't. In a quiet way, some of these ideas are being tried in Hooksett. It has been my experience that best results are obtained when a dedicated and skillful teacher works with a relatively small number of pupils towards reaching each child. Thus new methods, materials, and teachers become tools in the hands of a master craftsman. We also must remember that no two pupils are alike; they do not respond the same way to the same stimulus, and it becomes even more important to have a highly-competent teacher in the classroom who must make many decisions per day, most of which must be correct!

Your continued excellent support of the Hooksett Schools is appreciated.

Respectfully submitted,
C. MAURICE GRAY
Superintendent of Schools

DIVISION OF MUNICIPAL ACCOUNTING

STATE TAX COMMISSION

Concord, New Hampshire

SUMMARY OF FINDINGS AND RECOMMENDATIONS

September 3, 1965

The School Board
Hooksett School District
Hooksett, New Hampshire

Gentlemen:

Submitted herewith is the report of the annual examination and audit of the accounts of the Hooksett School District for the fiscal year ended June 30, 1965, which was made by this Division in accordance with the vote of the District. Exhibits as hereafter listed are included as part of the report.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the School Board and the School District Treasurer.

FINANCIAL STATEMENTS

Comparative Balance Sheets: (Exhibit A)

Comparative Balance Sheets as of June 30, 1964 and June 30, 1965, are presented in Exhibit A. As indicated therein, the Net Debt decreased by \$55,726.60 during the fiscal year ended June 30, 1965.

Analysis of Change in Financial Condition: (Exhibit B)

An analysis of the change in financial condition of the School District during the fiscal year is made in Exhibit B, with the factors which caused the change indicated therein.

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits C and D)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended June 30, 1965, are presented in Exhibits C and D. As indicated by the Budget Summary (Exhibit D), a revenue surplus of \$7,194.78, plus a net unexpended balance of appropriations of \$8,198.22, resulted in a net budget surplus of \$15,393.00.

Summary Statement of Receipts and Expenditures: (Exhibit E-1)

A summary statement of receipts and expenditures for the fiscal year ended June 30, 1965, made up in accordance with the uniform classification of accounts, is included in Exhibit E-1. Proof of the Treasurer's balance as of June 30, 1965, is indicated in Exhibit E-2.

Statement of School Lunch Program Account: (Exhibit F)

A statement of the School Lunch Program account is included in Exhibit F.

Statement of Building Fund Account: (Exhibit G)

A statement showing the activity in the Building Fund account during the fiscal year is presented in Exhibit G.

Statement of School Tax Account: (Exhibit H)

Exhibit H presents a statement of the School District Tax account with the Town of Hooksett. As indicated therein, as of June 30, 1965, the School District had received from the Town the total of the 1964-65 School Tax in the amount of \$382,532.72.

Statement of Long Term Indebtedness: (Exhibit I)

A statement of the outstanding long term indebtedness of the School District as of June 30, 1965, showing annual debt service requirements, is contained in Exhibit I.

GENERAL COMMENTS

Current (Deficit) or Surplus

The current financial condition of the School District changed from a current deficit (excess of current liabilities over total assets) of \$2,422.60, to a current surplus (excess of total assets over current liabilities) of \$14,710.14, in the fiscal year ended June 30, 1965, as shown herewith:

	<u>June 30, 1964</u>	<u>June 30, 1965</u>
<u>Total Assets</u>	\$10,541.27	\$ 18,537.02
<u>Current Liabilities</u>	<u>12,963.87</u>	<u>3,826.88</u>
Current (Deficit) or Surplus	(\$ 2,422.60)	\$14,710.14

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the School District.

We extend our thanks to the officials of the Hooksett School District for their assistance during the course of the audit.

Yours very truly,

Harold G. Fowler
Director
DIVISION OF MUNICIPAL ACCOUNTING

Certificate of Audit

This is to certify that we have examined and audited the accounts of the Hooksett School District for the fiscal year ended June 30, 1965. In our opinion, the Exhibits included herewith reflect the true financial condition of the School District on June 30, 1965, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,

REPORT OF COMMISSIONERS

During the past year the water system continued to grow at an accelerated rate as it has for the past 4 or 5 years, with the continued development of the housing project in the Birch Hill Drive Area. A total of 3,220 feet of new main was added in this area with 2,120 feet of 8" cement asbestos pipe being installed on Pinnacle Street and Vista Drive and 1,100 feet of 6" cement asbestos pipe on Donald Street and Summit Drive. As in the past all main extension work was performed and paid for by the Developer, under the supervision of the Precinct and all work was guaranteed in writing. Also during 1965 there were 4 hydrants and 26 new services added to the system.

At the last annual meeting authorization was given and funds appropriated to increase the Precinct's pumping capacity and to make alterations to the pumping Station to accommodate a larger pump. The Board of Commissioners has proceeded with this project and by the end of the year had completed an addition to the Pumping Station and, after competitive bidding, had awarded the contract for installation of the new machinery, to Letendre Plumbing and Heating Co. of Hooksett, the lowest bidder. It is anticipated that this work will be completed and the new pump in operation this spring.

The program for metering all services in the Precinct is progressing as scheduled, with 26 meters being installed in 1965. As you will note from the Budget, an increase in funds for this purpose has been requested for the coming year in an effort to speed up the Program.

An additional project for 1966 will be the painting of the Stand-pipe which has not been done for 8 years. An Article has been included in the Warrant to transfer the necessary funds from the Repair and Replacement Fund to sand blast and apply 2 coats of paint to the Stand-pipe.

Hooksett Village Water Precinct

WARRANT

STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE HOOKSETT VILLAGE WATER PRECINCT IN THE TOWN OF HOOKSETT AND COUNTY OF MERRIMACK IN SAID STATE QUALIFIED TO VOTE IN SAID PRECINCT AFFAIRS:

You are hereby notified to meet at the Odd Fellows Hall in said Hooksett on Saturday the 12th

day of March next, at two o'clock in the afternoon, to act upon the following subjects:-

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Water Commissioner for the ensuing five years.
4. To choose a Treasurer for the ensuing year.
5. To raise such sums of money as may be necessary to defray Precinct charges for the ensuing year and make appropriations of the same.
6. To see if the Precinct will vote to authorize its Board of Water Commissioners to sand blast and paint the Precinct's Stand-pipe and to authorize the Board of Water Commissioners to withdraw from the Repair and Replacement Fund the sum of Twenty-eight hundred Dollars (\$2,800.00) for this purpose.
(Approved by the Town Budget Committee.)
7. To transact any other business that may legally come before said meeting.

The Polls will close at 4 P.M. The Warrant will be discussed at 7 P.M.

Given under our hands and seal this 26th day of January in the year of our Lord nineteen hundred and sixty-six.

CENTRAL HOOKSETT WATER PRECINCT

Superintendent's Annual Report for 1965

The system extended its mains approximately 3,000 feet, adding three new hydrants and about thirty five new services.

The meter program is going very well and we expect to have it completed by the end of 1966. We installed over 100 meters in 1965 - which leaves about 45 to do in 1966. This will complete the installation of meters on all old services.

I would like, also, at this time to thank the people of the precinct for their cooperation during the water ban last summer. We are sorry we had to put on these restrictions but due to the critical water shortage we had no choice.

Proposed in the 1966 warrant - Article No. 6 - is a plan for an additional water supply to meet our demand. This is very important if we intend to keep up with the progress and growth of the town and if we are to have enough water so that we will not have to have restrictions in the future.

Also at this time I would like to thank the other commissioners for their efforts and cooperation in solving our problems. They have put a lot of time into this and deserve credit for their work.

Ralph W. Page, Supt.
Central Hooksett Water Precinct

WARRANT

STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE CENTRAL HOOKSETT WATER PRECINCT IN THE TOWN OF HOOKSETT AND COUNTY OF MERRIMACK IN SAID STATE QUALIFIED TO VOTE IN SAID PRECINCT AFFAIRS:-

You are hereby notified to meet at the Underhill School in said Hooksett on Wednesday the 9th day of March next at seven-thirty o'clock in the evening, to act upon the following subjects:-

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Water Commissioner for the ensuing five years.
4. To choose a Treasurer for the ensuing year.
5. To raise such sums of money as may be necessary to defray Precinct charges for the ensuing year and make appropriations of the same.

6. To see if the Precinct will vote to authorize its Board of Water Commissioners to develop a new Well site, including the installation of a well, or wells, pump, supply main, power lines and such other equipment as shall be necessary for this purpose; and to see if the Precinct will vote to authorize its Water Commissioners to borrow a sum of money not to exceed Twenty thousand (\$20,000.00) Dollars, on the credit of the Precinct, by the issue of Serial Bonds or notes under the provisions of RSA 33 for this purpose; and to determine the time and place of payment and form of said Bonds, or notes, and the rate of interest thereon, and to provide for the sale thereof.

7. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 9th day of February, in the year of our Lord nineteen hundred and sixty-six.

Ralph W. Page
Rudolph J. Dlugosz
Maurice H. Robie
Edward Higgins
Board of Water Commissioners
Central Hooksett Water Precinct

TEENAGERS

**GROW UP
AND
GO HOME!**

GROW UP AND GO HOME!

Some mighty practical advice to teenagers was voiced recently by Judge Phillip G. Gilliam of Denver. And what he said might help a lot of us adults do a better job of living, too. Here it is:

Always we hear the plaintive cry of the teenager: "What can we do? Where can we go?" The answer is, **GO HOME!**

Hang the storm windows, paint the wood-work, rake the leaves, mow the lawn, shovel the walk, wash the car, learn to cook, scrub some floors, repair the sink, build a boat, get a job. Help the minister, bishop, priest or rabbi, the Red Cross, the Salvation Army, visit the sick, assist the poor, study your lessons. And, when you are through—and not too tired—read a book.

Your parents do not owe you entertainment. Your city or village does not owe you a living. You owe the world something. You owe it your time and energy and your talents so no one will be at war, in poverty, or lonely again.

In plain simple words—**GROW UP**; quit being a crybaby. Get out of your dream world and develop a backbone, not a wishbone, and start acting like a man or a lady.

You're supposed to be mature enough to accept some of the responsibilities your parents have carried for years. They have nursed, protected, helped, appealed, begged, excused, tolerated, and denied themselves needed comforts so that you could have every benefit.

IN HEAVEN'S NAME—GROW UP AND GO HOME!

*(From the Star Valley Independent,
Afton, Wyoming.)*
